

College Stadium Shoebox Project - 30 pts.

Due Date: By the end of the block on Friday, September 16.

Directions: You can work with 1 other student on your shoebox. You will select a college team (football/basketball/soccer) and create a stadium display using a shoebox. Your stadium needs to show fans, a display of the playing field/court, scoreboard, and sponsors. You might choose to have figurines for the players too (optional). Use creativity and neatness. You can share a Google Slide presentation (no more than 5 pages) with the instructor to get it printed in color.

[Link to Sign Up for a Team](#) (no duplicates!)

You also need to include an attached card that has the following information:

- Name of the College & Mascot Name example: Wisconsin Badgers
- Name of the sport
- Name of the stadium/arena
- Location of the stadium/arena (city and state)
- What conference the team is in (example: Big 10 Conference)
- How many seats the stadium/arena holds
- Average ticket price for a game (tell me who the team is playing, the date of the game)
 - Take the high and low cost, add them together and then divide by 2
 -

Grading

- | | |
|---------|---|
| 5 pts. | Fans are shown |
| 10 pts. | Playing field/court look realistic |
| 5 pts. | Sponsors are noted in the signage inside your stadium |
| 5 pts. | All information given on the attached card |
| 5 pts. | Neatness and Creativity |
