Secondary & Tertiary Color Mixing

TERMS OF USE

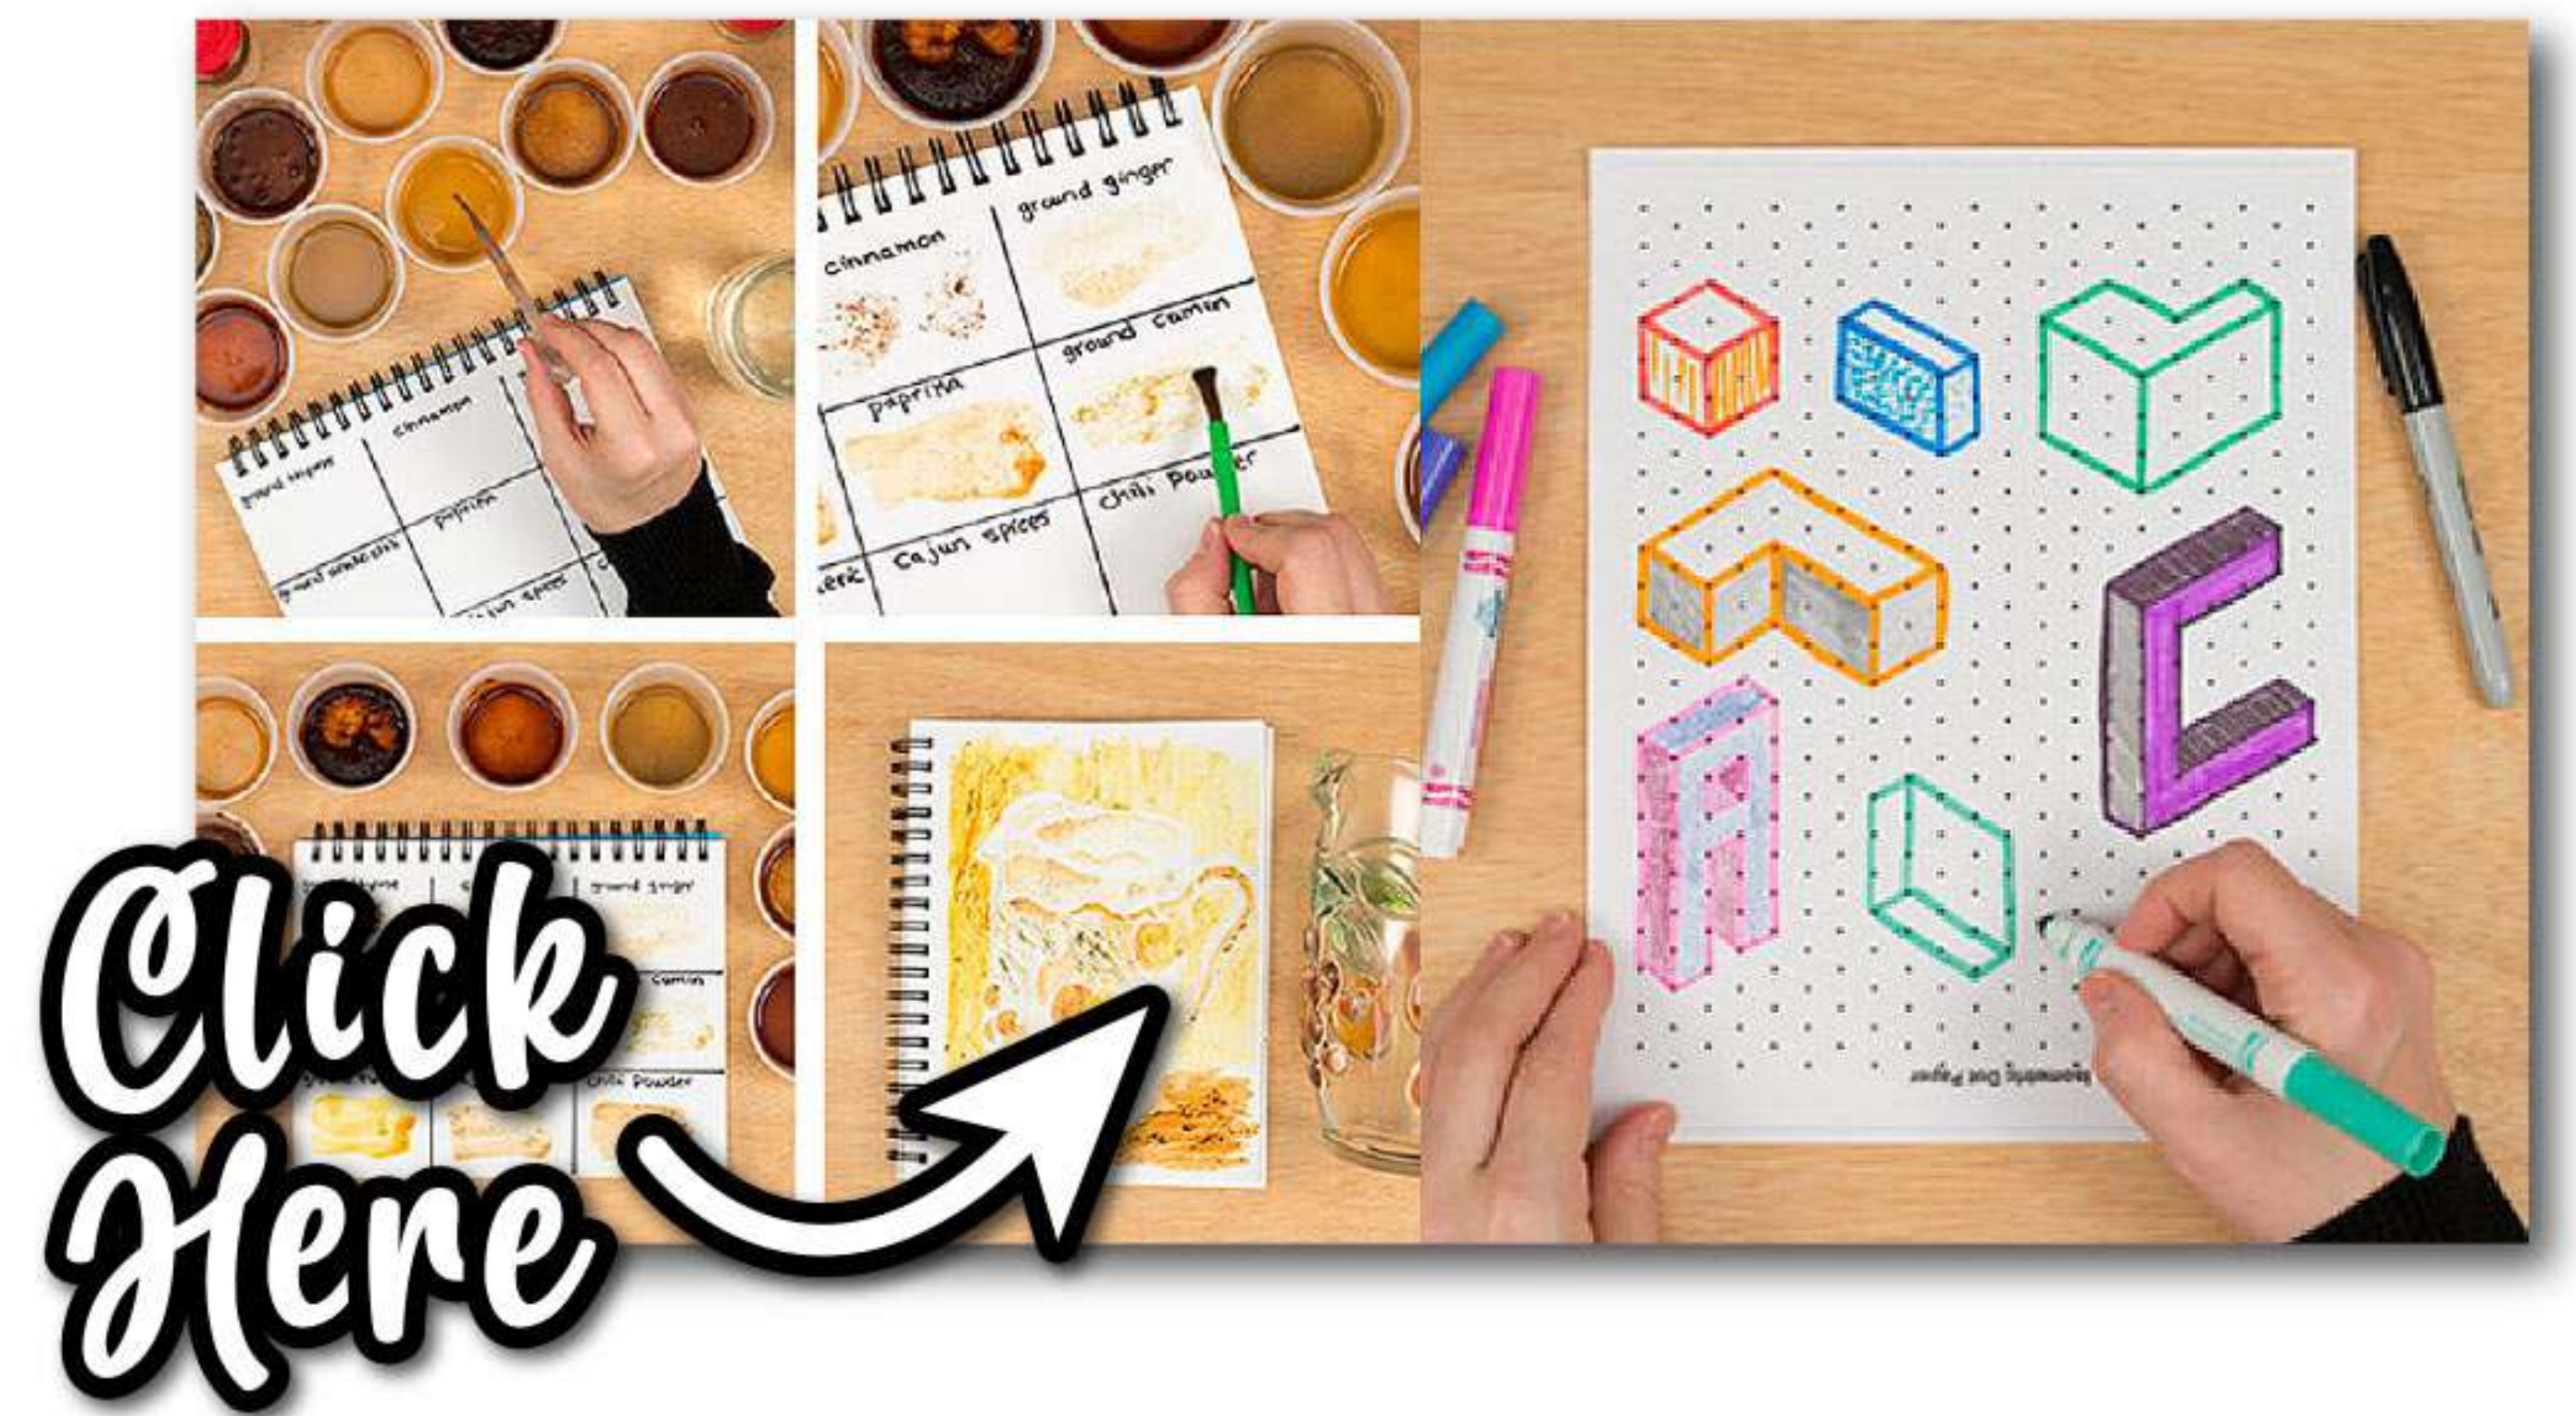

Thank you for your purchase! Here are some guidelines for how my resources may and may not be used.

All teaching materials sold by **Glitter Meets Glue®** are for non-commercial, personal classroom/homeschool use only.

- You **may not** edit, adapt, distribute, or translate this resource into any other language **with the intent to re-sell**.
- You **may** duplicate this resource for each student, whether in digital or paper form, using your school's LMS.
- You **may not** create free or paid commercial courses and classes, whether virtually or in-person, based on this resource.
- You **may** reference this resource on your teaching blog or in pro-development workshops with credit given back to me and a link to my website, so long as you are not giving it away.
- You **may not** upload my teaching materials to file and video sharing websites, host them on your classroom website, blog, district server or other educational websites **with the intent to share them freely** with other teachers or homeschoolers.
- You **may not** re-sell or share physical or digital copies of this resource with other teachers as you have purchased a single-user license.
- You **may not** claim this resource as your own or remove the credit graphic or copyright notice in any of my teaching materials.

Glitter Meets Glue® clip art and teaching materials are protected by U.S. copyright and international treaties. All graphics and pictures are the sole property of Glitter Meets Glue®.

Need distance learning art ideas?

Here's how to access the digital copy of this lesson:

- 1) Sign into your **school** Google account.
- 2) Click the access link at the bottom of this page.
- 3) You will be prompted to **"make a copy."** This **master copy** can now be found in your Google Drive.
- 4) Locate the **master copy**, right-click on it, and select, **"make a copy"** from the dropdown menu. You are now the **"owner"** of the **second (working) copy**. This is the one you'll assign to students.
- 5) Rename the **working copy** something unique to differentiate between the two copies.
- 6) To assign it, go to the document and click the **"share"** button at the top. If assigning to students who don't have a Google account, click on **"get shareable link"** and select **"anyone with the link can edit"** from the dropdown menu. Then have students make their own second (working) copy so they can edit it. If using Google Classroom, simply select **"make a copy for each student."**
