textbook

# Congress of Vienna (1814-1825)

- ◆ Influential leaders meet in Austria to try to restore **stability** and **order** in France.
- ◆ Most influential leader was **Prince Clemens von Metternich** of Austria
- ◆ MAIN GOAL: to create a lasting peace in Europe—(no more empire-building Napoleons allowed!)

# The PLAN

- ◆ Redraw the map of Europe—surround France with strong countries (created kingdom of the Netherlands, gave Prussia some French land—a “buffer zone”)
- ◆ Promoted idea of **LEGITIMACY**—restoring monarchs to their “rightful” throne.
- ◆ Created the **CONCERT OF EUROPE**—an agreement to meet together to solve future problems

# Europe: 1799

UNITED KINGDOM  
**Europe: 1815**

# BUT....

- ◆ They failed to foresee how powerful new forces like **NATIONALISM** (strong feelings of pride/devotion to ones country) would work against them.
- ◆ European nations were ready to try to become completely independent (this will then influence Latin American nations, too!)

# Imagine this...

What would happen if Shenendehowa high school took over all of the capital district high schools, including APHS—with the goal of improving test scores & educating better graduates.

How would the students of APHS react?

What might we do?

How would we react to this? Or prevent it from happening again?
