# Consequences Match-Up

Can you build an island?

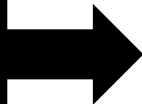

Directions: Read about the changes to the environment below. Then choose what you think happened as a consequence of the change. Check whether the consequence was a positive one or a negative one.

**A company dumped its waste into a stream nearby.**

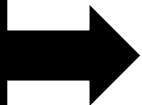

positive ☐  
negative ☐

**A town built a fence on a nearby mountain to avoid avalanches.**

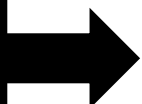

positive ☐  
negative ☐

**Someone disposed of a honeybee colony, killing the bees.**

positive ☐  
negative ☐

**A city builds a dam to collect water and provide energy.**

positive ☐  
negative ☐

cut here

**Nearby plants suffered without the bees to pollinate.**

**The city uses less natural resources.**

**The water became toxic.**

**Hikers and skiers are safer.**
