Construction Management

Why Study

Construction Management?

Our Construction Management program develops innovative students with world-ready experience and meaningful industry expertise.

Only program in the state to offer EPA Lead RRP certification

Discover your passion and find your purpose at Ponaganset

in the classroom, in student organizations, and experiential learning opportunities. The Construction Management program offers hands-on, relevant, and rigorous instruction to students interested in pursuing construction related careers.

Immerse yourself in real-world learning experiences

and earn 80 work-based learning hours. Students must complete 80 hours during their four years. These hours are earned through industry projects, service learning, internships, and our school based enterprise.

Enhance your leadership skills

by becoming a member of National Technical Honor Society. Students are inducted in the fall of their senior year. Candidates must be enrolled in the Construction Management Program all four years and meet GPA requirements. Click [here](#) for more details.

Charlie Myers, M.Ed.

Construction Management CTE Instructor

Steven Martin

Construction Management CTE Instructor

"Students in Ponaganset's Construction Management Program will learn the vital role The Home Builders Institute (HBI) curriculum provides in developing their skills. Students have many opportunities to apply critical thinking while engaging in hands-on, real-world problem solving. Exposure to the current trends and technology in construction, supported by the most relevant machinery and tools will prepare students for a wide variety of construction career paths."

"We are so grateful that PHS works so hard to support the kids in all of the paths, whether it's traditional college, military or trades. He's loving the job and the company and he is officially an apprentice, attending apprentice school two nights a week. The company is sponsoring his tuition there too."

Conor P.
Ponaganset Graduate 23'
Construction Management Completer

"Ponaganset's CTE Program allowed me to participate in the work study program. It paved the road to my career, being able to work in the field and earn a wage my Senior year led to a job opportunity immediately after high school. My employer is paying for trade school too. I love what I'm doing and am so grateful to the program for helping me to succeed."
