Social Studies	Regular, Accelerated or Advanced Classroom setting.	Subject Acceleration Advanced Placement Offerings Post Secondary Enrollment Curriculum Compacting Differentiation of Opportunities Contests & Competitions	Gifted Education Specialist Counselor in charge of G/T Content Specialist Teachers

In the Indianola Community School District, we meet the affective needs of our gifted students through our academic setting in cluster grouping and acceleration by providing the following:

- The opportunity to work with others of similar interest, ability, and drive
- The appropriate level of challenge in the regular classroom through differentiation

- The appropriate flexible pacing through the curriculum, based on individual needs

Some gifted students will need assistance from our district's professional school counselors in coping with their heightened sensitivity, perfectionism, asynchronous development, peer relationships, situational stressors, and college and career planning. They can receive the support from our professional school counselors in either a small group setting or individual meetings.
