

Reflections Due September 28, 2016

Your photos will be of reflections or reflected images. These images may include the use of mirrors, reflections from surfaces or objects such as sunglasses, car bumpers, or a spoon, or reflections in a body of water such as a lake, river, or birdbath. These are only suggestions-find some creative ideas of your own.

“Reflections” consists of a minimum of 30 photos taken, and 3 submitted in a Google presentation. Keep in mind that these 30 do not have to be vastly different. A good photographer will take multiple shots of the same scene in order to choose the best one. **You may not use the same photo for different assignments.** All photos submitted must be new. You are encouraged to take more than 30 photos.

KEEP your original pictures-NEVER edit the originals-COPY the images to transfer.

Place the following in your shared folder:

- **Copies of 30 photos in a folder labeled with your “yourlastname:reflectionoriginals”**
- **A Google presentation “last name:reflections”** with 3 selected photos and write-ups for grading. All submitted photos should be cropped to a 4 X 6 format with no other edits. Write ups may include a description, constructive criticism, or challenges of getting the right shot.
- **If you have time**, edit a COPY of the photo to place side by side with the original on a second slide for each photo. This may improve your grade.
