

Core 44 Curriculum Guide

*Welcome
Class of 2017!*

This is a generic version of the Core 44. This could look very different for each student. This is just to give you an idea of what your next 4 or 5 years could look like with us.

JP Knapp Early College

The Core 44 contains the 44 “general education” requirements that all colleges and universities have. You will see below that they cover the basic English, Science, Math, History, and Social Behavioral Science courses. If a student successfully completes all courses for the Core 44, with a grade of a C or higher in all college level courses, the credits are guaranteed to transfer to any NC Public College or University. The Core 44 is what we hope all our students will achieve when they graduate from JP Knapp.

Freshman Year- Fall
Common Core Math I
Special Topics in Science Honors
World History Honors
Healthful Living

Freshman Year– Spring
Common Core Math II Honors
Earth & Environmental Science Honors
