

CORNELL NOTES

TOPIC/OBJECTIVE:

Cornell Notes at JCMS

NAME:

CLASS/PERIOD:

DATE:

ESSENTIAL QUESTION:

This is an example of the note taking form we use at JCMS.

Students fill in an overarching questions for the topic they are taking notes on here.

QUESTIONS:

This column can be used for questions that go with their notes, terms, years, and more.

This column helps to organize notes and to process the information on the notes a second time.

NOTES:

Students should take notes, draw pictures, diagrams, and more in this section. It helps to skip a line between their notes so that they are easier to organize with the column to the left.

SUMMARY:

Students should be able to explain the main idea of their notes in 1-2 complete sentences in this section.
