CCHS & TBHS GRADUATION REQUIREMENTS

Full-time student status: Wyoming High School Activities Association (WHSAA) criteria requires five (5) classes per semester.

Graduation Requirements for 2022–2023 and following years

Department	Credit	Must Include:
ENGLISH	4 Credits	<ul style="list-style-type: none">• 1 credit each of Freshman, Sophomore, and Junior English AND• 1 credit of Senior English to include<ul style="list-style-type: none">○ ½ credit of Senior English Speech AND ½ credit of Senior English Literature OR○ College English 1010 AND Communications 2010: Intro to Public Speaking OR○ AP English Literature and Composition
MATH	3 Credits	<ul style="list-style-type: none">• 1 credit of Algebra I
SCIENCE	3 Credits	<ul style="list-style-type: none">• 1 credit of Biology I
SOCIAL STUDIES	3 Credits	<ul style="list-style-type: none">• 1 credit of World Cultures OR World History• 1 credit of American History• ½ credit of Economics• ½ credit of American Government
PHYSICAL EDUCATION	2 Credits	<ul style="list-style-type: none">• ½ credit of Health Literacy
ELECTIVES	9 Credits	
TOTAL	24 Credits	

Community Project (Early Release) Policy

Qualifications:

- Seniors only
- Must be on track for graduation (21 credits minimum at beginning of school year and 24 credits minimum at semester)
- Must maintain a 3.0 cumulative GPA

AND

- One (1) of the following:
 - Minimum score of a 21 Composite on the ACT Test

OR

- Score proficient in two of these three subject areas on the ACT Test
 - Reading – 16 / Math – 17 / Science – 20

**** Community Project will be recalculated periodically and can be earned or forfeited at administrator's discretion.*

Teacher Assistant

- Eligibility to be determined by administrators at each school.
- One (1) Teacher Assistant class per semester
- Teachers are allowed one teacher assistant per day.

AP Classes – Advanced Placement

AP classes are the most demanding courses offered at the high school. Students earn high school credit and prepare for the AP test given in that subject area. AP tests are subject-specific national exams given in May. The AP test scored on a five (5) point scale; scoring 3, 4 or 5 may possibly earn college credit, determined by the university the student attends. AP exam fees are the responsibility of the student.

AP Classes

- | | |
|-----------------------------------|--------------------------------------------|
| • AP Biology | • AP Macroeconomics (only @TBHS) |
| • AP Physics | • AP Government and Politics (only @ CCHS) |
| • AP Chemistry | • AP Calculus AB and BC |
| • AP Spanish Language and Culture | • AP English Language and Composition |
| • AP Spanish Literature | • AP English Literature and Composition |
| • AP German Language and Culture | |

***** All students enrolled in an AP course *must* take the AP test in May to be considered for valedictorian or salutatorian *****

****AP Exam orders will have to take place in the fall with a final deadline for ordering in November****

Graduation Recognition Levels

Valedictorian:

- 4.0 GPA (class rank GPA scale)
- Two (2) AP courses (must take AP Exams)

Salutatorian:

- Minimum 3.9 GPA (class rank GPA scale)
- One (1) AP course (must take AP Exam)

Graduation with Honors:

- Minimum 3.75 GPA (cumulative GPA scale)

Grade Scales

The grade conversion chart below will be used for conversion of grades from percentage to letter grades, class rank GPA, and cumulative GPA. Class rank GPA will be determined according to the conversion chart. Only students progressing toward a regular diploma will be included in class rank. Class rank GPA will ONLY be used to report class rank and to make determinations for valedictorian/salutatorian honors. Cumulative GPA will be determined according to the conversion chart. This GPA is considered the student's official GPA and will be reported on student transcripts.

Percent Score	Letter Grade	Class Rank GPA*	Hathaway GPA***
98-100	A+	4.000	5.0
93-97	A	4.000	5.0
90-92	A-	3.666	5.0
88-89	B+	3.333	4.0
83-87	B	3.000	4.0
80-82	B-	2.666	4.0
78-79	C+	2.333	3.0
73-77	C	2.000	3.0
70-72	C-	1.666	3.0
68-69	D+	1.333	2.0
63-67	D	1.000	2.0
60-62	D-	0.666	2.0
59 & Below	F	0.000	0.0

*Class rank GPA is used ONLY for determining Valedictorians and Salutatorians.

*** The Hathaway GPA will be based on a scale from 0 to 5.0. All courses taken will be included in the GPA calculation; however, only AP, IB, and Dual/Concurrent college courses 1000-level and above will be weighted. College courses below the 1000-level will not be weighted.

HATHAWAY GPA QUICK FACTS

Changes have been made to the way high school GPAs are calculated for the Hathaway Scholarship. In accordance with **Senate Enrolled Act 0056**, the Wyoming Department of Education (WDE) established a **grade-weighting policy** that accounts for the increased academic rigor of certain high school courses.

All districts will be required to use the weighted Hathaway GPA starting in the 2018-19 school year. All AP, IB, and Dual/Concurrent 1000-level and above courses will be weighted.

QUICK FACTS

- The Hathaway GPA will be based on a scale from 0 to 5.0. All courses taken will be included in the GPA calculation; however, only AP, IB, and Dual/Concurrent college courses 1000-level and above will be weighted. College courses below the 1000-level will not be weighted.
- All Hathaway courses must be approved by the WDE's Hathaway Team. Additionally, AP courses must be approved by the College Board, and IB courses must be approved by the International Baccalaureate program.
- Starting in the 2018-19 school year, all student transcripts must include the weighted Hathaway GPA.
- The weighted GPA does not apply to any students who graduate before the 2018-19 school year.
- Beginning in the 2018-19 school year, all AP, IB, and Dual/Concurrent Enrollment courses students are taking or have previously taken will be weighted.
- Students do not have to take an AP test in order to receive a weighted grade.
- Students taking Dual/Concurrent Enrollment courses do not need to receive college credit from those courses in order to receive a weighted grade.
- The Chapter 38 Rules have not yet been updated - the **Rules Promulgation Procedure** requires all new rules to be open for public comment before full implementation.

Hathaway Scholarship Requirements

MAX AWARD AMOUNT			
HONORS \$1,680 per semester	PERFORMANCE \$1,260 per semester	OPPORTUNITY \$840 per semester	PROVISIONAL \$840 per semester
8 full-time semesters			
WHERE YOU CAN USE IT			
May be used at a WY community college or UW			
LANGUAGE ARTS			
4 Years			
MATH			
4 Years Algebra I, Algebra II, Geometry and one "additional math" course taken in grades 9-12			
SOCIAL STUDIES			
3 Years			
SCIENCE			
4 Years One year may include an "additional science" course			
Fine and Performing Arts or Career and Technical Education or Foreign Language			
4 Years 2 years must be a sequenced pathway***		2 years of CTE, FPA or FL (2 years foreign language must be sequenced)	
ACT SCORE			
25	21	19	17 (Or score a 12 on WorkKeys)
HIGHSCHOOL GPA			
3.5	3.0	2.5	2.5

4 full-time semesters. Students with a certificate can extend for an additional 4 full-time semesters at a community college.*

Must start at a WY community college

Current HS graduation requirements

Current HS graduation requirements; at least 2 of these courses: Algebra I, Algebra II, Geometry

Current HS graduation requirements

Current HS graduation requirements

HB0120 provides flexibility for students meeting Hathaway success curriculum (HSC) requirements. As of July 1, 2021, students will now be able to take any HSC approved high school level course/s **prior** to ninth grade and will qualify for the Hathaway Success Curriculum

* Students with an associate's degree can extend for an additional 4 full-time semesters at UW.

** All AP, IB and dual/concurrent courses (+1000 level and above) will be weighted.

*** Two of the four years must be sequenced. Sequenced courses follow the same CTE career cluster OR CTE program of study.

WARRANTY:

CCSD will extend a Warranty to all CCSD graduates who have earned at least 10 credits toward their graduation from CCSD schools. The Warranty will provide county employers and employers and employees the opportunity to request remediation in the following skill areas:

- 1) Basic Math
- 2) Writing Skills
- 3) Reading Comprehension

The Warranty will be in effect from the date of graduation until the student's 20th birthday. The Warranty process will be as follows:

- 1) The employer and/or employee will contact the school granting the diploma for a petition form.
- 2) The employer and/or employee will file the petition with the principal outlining the skill deficit area.
- 3) The principal will review the petition, and if justified, will cause the formation of an assessment team to analyze the problem.
- 4) The principal, assessment team representative, and employee/graduate will meet to discuss the assessment.
- 5) The team will prescribe instruction, if justified.
- 6) Instruction will be a CCSD's expense.

As an additional service to employers, CCSD will advertise the fact that high school attendance is expressed as a percentage figure on all CCSD diplomas.

GUARANTEE

Students who wish to take advantage of the Campbell County School District Guarantee must meet the following criteria:

- 1) Graduated with a 3.0 GPA or better
- 2) Earned at least (10) credits toward graduation from CCSD schools.
- 3) Completed the recommended college preparation curriculum as follows:
 - English (four years or more)
 - Mathematics (four years or more)
 - Math must be taken during senior year
 - One year credit each for Algebra I, Geometry, Algebra II
 - One year credit for Pre-Calculus, or Calculus I
 - Social Studies (four years or more)
 - One year credit each for American History, World History, and American Government / Economics]
 - Natural Science (four years or more)
 - One year credit each for Biology, Chemistry, General/Physical/Earth Science, and Physics

The Guarantee will entail tuition reimbursement for any remedial course work required by a trade school, community college or university prior to the student's entry into a regular course sequence. The reimbursement for actual course registration costs not to exceed the University of Wyoming resident rate. The student must provide the high school with receipt of tuition cost for the remedial course as well as a transcript. The guarantee will be in effect from the date of graduation until the student's 20th birthday. Students who find themselves in this situation should contact the principal of the high school he or she attended.

Courses with College Credit

- Concurrent Enrollment consists of courses offered to high school students that allow them to take college level courses within the high school day with regular high school faculties at CCHS / TBHS for both high school and college credit.
- The number of college credits a student earns will be dependent on the number of courses completed with a grade of C or better. ALL passing grades receive CCHS / TBHS credit.
- Students must meet regular college course prerequisites and criteria to be eligible for college credits. Eligibility for College English and College Pre-Calculus, and College Calculus are based on the ACT scores or the college placement exam scores.
 - For College English a 18 or above must be scored on the Reading portion of the ACT test, or an Accuplacer Reading score of 255 or higher.
 - For College Pre-Calculus a 23 or above must be scored on the Math portion of the ACT test, or an Accuplacer score of 240 or higher.
 - for College Calculus, a 27 or above must be scored on the Math portion of the ACT test or completion of College Pre-Calculus with a C or higher.
 - **Qualifying ACT scores/placement exam scores must be obtained by the first day of school.**
- For courses held at the high school during the regular high school class hours, the student is not responsible for tuition and fee payment. Tuition and fees are paid by the local school district through an agreement between Gillette College and CCHS / TBHS. Students are expected to purchase the required texts before the first class meeting.
- Concurrent enrollment credits that are designated as transfer courses (not vocational courses) will transfer to most local area colleges in Wyoming, Montana, South Dakota, and Nebraska. **Please inquire with the college of your choice to determine eligibility of credit transfer.**
- Concurrent enrollment credits for courses that are specific to a program or a certificate are eligible for Sheridan College/Gillette College credit ONLY. College credit is earned through Sheridan College/Gillette College.

This listing of courses represents the anticipated offerings for the 2022-2023 school year.

Concurrent Enrollment Classes

The Memorandum between Gillette College and Campbell County School District is renewed annually. *Courses offered are subject to change* at any time at the discretion of Gillette College.

Pronghorn Advantage Scholarship Program

Pronghorn Advantage are programs offered to qualified juniors and seniors at Campbell County and Thunder Basin High Schools. These programs give you a chance to experience actual college classes and college life before graduating from high school. Participating students enroll in college courses taken at Gillette College and attend classes at the college during the school day or in the evenings. On-line courses offered through the college also qualify. Students who qualify receive a scholarship that pays full tuition and fees for all coursework taken as long as you maintain satisfactory grades.

All Pronghorn Advantage students attend classes just like all other college students. Organizing time, getting to class, developing responsibility to deal with various requirements, and actually functioning in college will be a great transition to and preparation for college enrollment following high school graduation. Successful students will receive college grades on a college transcript, and fully transferable college credits.

Two kinds of courses are available through this program. Transfer courses, those that are designed to transfer into a Baccalaureate Degree at a community college or university; like English, math, psychology, government, economics, etc., are available and fulfill nearly all college general education requirements. In addition, advanced career-technical education courses (CTE) are available to student who have completed the basic curriculum at the high school (welding, diesel, etc.) Think of the advantage you'll have when you finally enroll in college as a full-time student. College classes and expectations will be nothing new to you. You will have already successfully participated in a transition to college course work and you will be ready to face college life with ease.

The high school will release Pronghorn Advantage students from high-school classes on a case-by-case basis as needed. First-time enrollees are limited to six credits at the college or generally two classes. After one successful semester, a student may take up to 16 credits (full-time college status) at the college. All courses taken via the Pronghorn Advantage program are taken for credit at both the high school and the college.

Daytime classes at the college tend to fill quickly once registration opens so don't delay. If you plan to take advantage of this program, try to sign up and register early in order to have the best choice and flexibility in choosing classes.

Requirements for Participation:

- Juniors & Seniors
- Accuplacer scores may be required for some courses
- Approval of high school counselor and Director of BOCHES
- **CTE Courses:**
 - Student must have completed basic courses in the CTE program at the high school

How do I sign up?

Speak with your counselor and let them know you're interested and to receive the dual enrollment packet. Follow the steps outlined in the packet, including meeting with the Director of BOCHES and a college representative. For questions contact the Gillette College enrollment office at 307-681-6003.

Will the college credits transfer?

The credits taken at Gillette College will transfer to most major colleges and universities in the country, this is determined by the college or university you will be attending.

What does this cost?

All tuition and fees for the courses will be paid through a scholarship by BOCHES (Board of Cooperative Higher Education Services). Students are responsible for books and all course materials required.

What courses can I take at the college?

Any non-remedial college-level course 1000 level or above with approval by the CCHS / TBHS Principal qualifies.

When can I begin this program?

Students who qualify may begin the program in the summer semester prior to their junior year in high school or any time after.

Can I use the Pronghorn Advantage program for summer college classes?

Yes, as long as you are at least a junior and have not yet graduated from high school.

Would I be a college or high school student?

Both. Students are treated just as all other college students when in class at the college and just like all other high school students when at class in the high school. Students who enroll in the courses will receive the same grade for the course at BOTH the high school and the college.

Is transportation provided?

No. You are responsible to get to and from your college classes.

Does the scholarship cover book costs?

No, the Pronghorn Advantage scholarship only covers the cost of tuition and fees. Students who participate in the program are responsible for book and material costs for courses.

WHSAA and Transferring to a New School

The purpose of the WHSAA Transfer Rules (Rule 6.4.0 thru Rule 6.4.93) is to protect, not inhibit students who participate in athletic competition. The Transfer Rule is preventative in nature and is devised to eliminate the incentive to transfer schools when a motivation is for athletic purposes and after a student has initially chosen the school of his/her choice. The Transfer Rule protects students who have previously participated in athletic competition at a member school from being replaced by students who transfer for athletic purposes and further protects students at other member schools from the effects of a school shopping by students (Rule 4.1.2) and recruiting by member schools and their agents (Rule 4.1.1 and Rule 4.1.2). The Transfer Rule encourages fair play, discourages the excesses and abuses of over enthusiastic promotion and protects the integrity of interscholastic athletic programs for the member schools and their students. The eligibility of a transfer student must be established by school records or verification from the sending school. The responsibility for establishing eligibility rests with the receiving school. A student's residence is the home in which the parent(s) or legal guardian actually, physically live. Resident can be changed only by the union of act and intent. The residence of a person is where his habitation is fixed and to which, whenever he is absent, he has the intention of returning. A change of residence can only be made by the act of removal joined with the intent to remain in another place. There can be only one residence. The only legal guardianship that is recognized by the WHSAA for transfer rule purposes is that legal guardianship which has been established at least 12 months prior to the student's moving to a new school and the fact that the student has been living with that legal guardian in their previous school setting.

6571 East 2nd Street
Casper, Wyoming 82609

2021-2022

GENERAL RULES OF ELIGIBILITY

These rules are WHSAA minimum requirements. WHSAA member schools may establish additional rules. For a complete copy of these rules, please see your principal or activities director.

A STUDENT

1. * Must have passed in at least five solid subjects in the immediate preceding semester and must be passing five solid subjects in the current semester. Special education students must meet IEP goals set for them.
2. Must be under twenty years of age on August 1 for fall sports, November 1 for winter sports, and March 1 for Spring sports.
3. Must have been in residence at the school he or she is representing for one year from date of enrollment unless
 - a. Entering ninth grade for the first time.
 - b. Transferring into a school due to a move on the part of parent or legal guardian of twelve months.
 - c. Assigned to a foster home by court order.
 - d. Transferring from a school which has been discontinued or consolidated.
 - e. Student did not compete in the same activity which is being participated in at varsity level at new school during twelve months prior to enrollment at new high school.
4. Must not have changed schools due to influence by any person(s) or promises of preferential treatment.
5. * Must not have been in attendance for more than four fall or four spring semesters, for a total of eight semesters, which will be counted consecutively after the student enters the ninth grade.
6. Must have had a physical examination prior to first practice, but not before May 1 of this year.
7. Must have practiced for the required number of days dependent upon the sport. (Check with Principal)
8. * Must not participate with an independent team while a member of high school competing squad in the same sport or activity.
9. Must not have received any awards with a value greater than \$250 or any cash as the result of athletic involvement.
10. * Must be currently enrolled in the school student is competing with and be in good standing.
11. Must be an amateur - one who has never used and is not now using athletic skill for monetary gain.
12. Must not have participated in athletics with any college or university group.

** Fine Arts & Vocational participants need only meet these requirements.*

[illegible]

SCHOOLS, REMEMBER...

1. To get physicals on athletes before they participate in practice or contest.
2. To check the number of practice days for each participant.
3. To have on file in school OFFICE (before competition) a master eligibility list of all students participating in interscholastic activities and the eligibility rules pamphlet sign-off for each participant.
4. To submit transfer form for pupils transferring into your school.
5. To hire only WSOA registered officials

PLAYNAIA™

High School Student Checklist

Complete this checklist to get in the game!

*Find more information at
www.playnaia.org/freshmen*

1

Register and submit a complete profile at PlayNAIA.org as early as your junior year. You might qualify for an early decision if you have an elevated GPA, check our [website](#) for more information..

Make sure to **opt-in to texting** for up-to-date alerts.

2

Ask Your Counselor to Send Your High School Transcript through their 'High School Portal' for same-day delivery.

For other delivery methods, visit our [website](#).

Meet Two of These Requirements

3

Request Your ACT or SAT Score to be sent directly from the testing agency using our code, **9876**. Test scores cannot be taken from your high school transcript.

- 1 Minimum high school GPA of a 2.0 or higher.
- 2 Minimum ACT or SAT score.
3. Graduate in the top half of your high school class.

4

Log Into Your To Do List Regularly for updates. Your final status will be posted on your profile 3-5 business days after all required records are received.

5

If You Have Questions email us at ECInfo@naia.org or call (816) 595-8300. We're here to help you!

Requirements differ for students with a GED, home schooling, and/or who took time off after high school graduation (excluding summer).

WEBSITE REGISTRATION CHECKLIST

Take your first step to becoming an NCAA student-athlete at eligibilitycenter.org.

Choose from our two account types to get started:

- 1. Certification Account:** You need to be certified by the NCAA Eligibility Center to compete at an NCAA Division I or II school. You also need to be registered with a Certification Account before you can make official visits or sign a National Letter of Intent in Division I or II.
- 2. Profile Page:** If you plan to compete at a Division III school or are currently unsure in which division you want to compete, create a Profile Page. If at any time you wish to pursue a Division I or II path, you will be able to transition to a Certification Account.

For Certification Accounts, please allow between 30 to 45 minutes to register completely. If you need to exit and come back at a later time, you can save and exit once your account or profile is created.

Reference the Help section located in the top task bar at any time to answer your questions as you work through registration.

Below is a list of items we recommend you have before beginning your registration with the NCAA Eligibility Center:

Valid Student Email

You need a valid email address that you check regularly to register. This is important for updating prospective student-athletes about their account. For more information about accepted emails, please reference our [FAQ](#).

traditional high school season. It also includes information about any individuals who have advised you or [marketed](#) your skills in a particular sport. This information helps the Eligibility Center certify your amateur status when it is requested by an NCAA school.

Basic Student Personal Information

This includes information such as your name, gender, date of birth, primary and secondary contact information, and address.

Payment

For Certification Accounts, nonrefundable registration fee for U.S., U.S. Territories* and Canadian students: \$80

Basic Student Education History

Please include details about all high schools or secondary schools you have attended in the United States or internationally, and additional programs you have attended.

*U.S. Territories include American Samoa, Guam, Northern Mariana Islands, Puerto Rico and U.S. Virgin Islands.

[Check](#) if your school has a list of NCAA-approved courses.

Nonrefundable registration fee for international students: \$135

The NCAA Eligibility Center accepts Visa, MasterCard, Discover and American Express. For payment questions, look [here](#). Some individuals may qualify to apply for a [fee waiver](#).

Student Sports Participation History

For Certification Accounts, this includes details for any expenses or awards you received, any teams you have practiced or played with or certain events in which you participated outside of the

Next Steps

Stay on track in high school and understand these [quick tips](#) to help in your eligibility process.

For more information, please visit: www.NCAA.org/playcollegesports.

ONE OPPORTUNITY. LIMITLESS POSSIBILITIES.

If you want to play sports at an NCAA Division I or II school, start by registering for a Certification account with the NCAA Eligibility Center at eligibilitycenter.org. If you want to play Division III sports or you aren't sure where you want to compete, start by creating a Profile Page account at eligibilitycenter.org.

ACADEMIC REQUIREMENTS

To play sports at a Division I or II school, you must graduate from high school, complete 16 NCAA-approved core courses, earn a minimum GPA and earn an SAT or ACT score that matches your core-course GPA.

CORE COURSES

Only courses that appear on your high school's list of NCAA core courses will count toward the 16 core-course requirement; visit eligibilitycenter.org/courselist for a full list of your high school's approved core courses. Complete 16 core courses in the following areas:

DIVISION I

Complete 10 NCAA core courses, including seven in English, math or natural/physical science, before your seventh semester.

ENGLISH	MATH (Algebra I or higher)	NATURAL/ PHYSICAL SCIENCE (Including one year of lab, if offered)	ADDITIONAL (English, math or natural/physical science)	SOCIAL SCIENCE	ADDITIONAL COURSES (Any area listed to the left, foreign language or comparative religion/philosophy)
4 years	3 years	2 years	1 year	2 years	4 years

DIVISION II

ENGLISH	MATH (Algebra I or higher)	NATURAL/ PHYSICAL SCIENCE (Including one year of lab, if offered)	ADDITIONAL (English, math or natural/physical science)	SOCIAL SCIENCE	ADDITIONAL COURSES (Any area listed to the left, foreign language or comparative religion/philosophy)
3 years	2 years	2 years	3 years	2 years	4 years

GRADE-POINT AVERAGE

The NCAA Eligibility Center calculates your [grade-point average](#) based only on the grades you earn in NCAA-approved core courses.

- DI requires a minimum 2.3 GPA.
- DII requires a minimum 2.2 GPA.

SLIDING SCALE

Divisions I and II use sliding scales to match test scores and GPAs to determine eligibility. The sliding scale balances your test score with your GPA. If you have a low test score, you need a higher GPA to be eligible. Find more information about sliding scales at ncaa.org/test-scores.

TEST SCORES

You may take the SAT or ACT an unlimited number of times before you enroll full time in college. Every time you register for the SAT or ACT, use the NCAA Eligibility Center code **9999** to send your scores directly to us from the testing agency. We accept official scores only from the SAT or ACT, and cannot use scores shown on your high school transcript. If you take either test more than once, the best subscore from different tests are used to give you the best possible score. More information regarding the impact of COVID-19 and test scores can be found at on.ncaa.com/COVID19_Fall_B.

HIGH SCHOOL TIMELINE

9TH GRADE

- *Start planning now!* Take the right courses and earn the best grades possible.

- Find your high school's list of NCAA-approved core courses at eligibilitycenter.org/courselist.
- Sign up for a free Profile Page account at eligibilitycenter.org for information on NCAA requirements.

10TH GRADE

REGISTER

- If you fall behind academically, ask your counselor for help finding approved courses you can take.

- Register for a Profile Page or Certification account with the NCAA Eligibility Center at eligibilitycenter.org.
- Monitor your Eligibility Center account for next steps.
- At the end of the year, ask your counselor at each high school or program you attended to upload your official transcript to your Eligibility Center account.

11TH GRADE

- Check with your counselor to make sure you are on track to complete the required number of NCAA-approved courses and graduate on time with your class.

- Take the SAT/ACT and submit your scores to the NCAA Eligibility Center using code **9999**.
- Ensure your sports participation information is correct in your Eligibility Center account.
- At the end of the year, ask your counselor at each high school or program you attended to upload your official transcript to your Eligibility Center account.

12TH GRADE

- Complete your final NCAA-approved core courses as you prepare for graduation.

- Take the SAT/ACT again, if necessary, and submit your scores to the NCAA Eligibility Center using code **9999**.
- Request your final amateurism certification beginning April 1 (fall enrollees) or Oct. 1 (winter/spring enrollees) in your Eligibility Center account at eligibilitycenter.org.
- After you graduate, ask your counselor to upload your final official transcript with proof of graduation to your Eligibility Center account.
- *Reminder:* Only students on an NCAA Division I or II school's institutional request list will receive a certification.

How to plan your high school courses to meet the 16 core-course requirement:

$$4 \times 4 = 16$$

Course Code Descriptions

Each course within the course guide is labeled with a code that identifies the level of rigor for that course. The majority of courses are taught at a level of rigor appropriate for that grade level and are marked G for General. Some courses are designed to focus on basic skill development in order to prepare a student for a general course and are marked B for Basic. By contrast, some courses are designed with a higher level of rigor and are marked E for Enriched. Enriched courses challenge students with a fast paced curriculum and greater depth of study in the respective content area. Advanced Placement (AP) courses fall within this category. In addition, courses designated with a C are college level courses designed to earn credit at a postsecondary institution. While AP courses provide the opportunity for college credit as well, earned credit depends upon AP exam scores and the policy of the accrediting institution. All courses, regardless of level, are aligned to adopted Wyoming content standards.

B – Basic: This course focuses primarily on skills development, including literacy in language, mathematics, and the physical and social sciences. These courses are typically less rigorous than standard courses and are intended to prepare a student for a general course.

G – General: This course provides instruction that focuses primarily on general concepts appropriate for the grade level. General courses meet the state and district expectations of scope and difficulty for mastery of the content.

E – Enriched: This course augments the content and rigor of a general course. The students will be challenged with a fast paced curriculum that deeply studies the topics within the discipline. AP courses within this designation provide opportunity for college credit based on an end of course exam.

C – College: This course is designed to be credit bearing at a postsecondary institution.

Language Arts

All students must successfully complete 4 years of English in grades 9 through 12 as part of basic graduation requirements.

Hathaway requirement: (Please reference page 5)

Provisional Opportunity – 4 years

Opportunity – 4 years

Performance – 4 years

Honors – 4 years

Language Arts

Course Name: Freshman English

Course Number	401901	401902	Freshman English builds upon students’ prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and includes the four aspects of language use: reading, writing, speaking, and listening. This course will introduce and define various genres of literature, with writing assessments often linked to reading selections.
Credit Type	English		
Grade Level	9		
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	None		
Course Level	General		
Meets Hathaway Success Curriculum	Freshman English		
Prerequisite	None		

Course Name: Enriched Freshman English

Course Number	402911	402912	Freshman English builds upon students’ prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and includes the four aspects of language use: reading, writing, speaking, and listening. This course will introduce and define various genres of literature, with writing assessments often linked to reading selections. Enriched Freshman English, in addition to studying various supplemental texts, will approach the curriculum with a greater depth and level of rigor. This course is designed for the student who seeks a rich and challenging experience in the English Language Arts.
Credit Type	English		
Grade Level	9		
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	None		
Course Level	Enriched		
Meets Hathaway Success Curriculum	Enriched Freshman English		
Prerequisite	None		

Course Name: Sophomore English

Course Number	413401	413402	Sophomore English is an introductory course intended to develop skills in reading, writing, speaking, and listening; students will read a variety of genres including short story, novel, poetry, drama and nonfiction. Students will utilize reading strategies to improve comprehension at literal, interpretive and applied levels. Included will be analytical writing, persuasive research composition, persuasive speaking, and will utilize writing process strategies.
Credit Type	English		
Grade Level		10	
Credit	½ credit per semester

Fee	None		
Course Level	General		
Meets Hathaway Success Curriculum	Sophomore English		
Prerequisite	None		

Course Name: Enriched Sophomore English

Course Number	401321	401322	Enriched Sophomore English is a yearlong course designed to improve student’s reading, writing, speaking, listening, and thinking skills through an integrated approach to literacy development. This course fosters the development of multiple reading strategies and literacy techniques through the reading of novels, dramas, poetry, short stories, and nonfiction. Students will also develop multiple writing skills and strategies with analytical writing and persuasive research composition. Finally, students will improve speaking skills through small group work, large group discussions, and speeches. This class is an enriched class focusing on college preparation and moves at a brisk pace.
Credit Type	English		
Grade Level		10	
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	None		
Course Level	Enriched		
Meets Hathaway Success Curriculum	Enriched Sophomore English		
Prerequisite	None		

Course Name: Junior English

Course Number	423501	423502	Junior English covers American Literature in a holistic frame of thought. Students have an opportunity to study literature as a part of the humanities. Included are studies of the essay, short story, poem, drama, novel, and historical nonfiction; discussion and writing are the prime focus. Teachers challenge students to think, speak, read, and write on the literal, interpretive, and evaluative levels. Presented chronologically, the course covers American literature beginning with the 1600's and ending in contemporary literature. Students read novels for class and out of class. Writing assignments include literary analysis, persuasive modes, as well as research. In addition, students study vocabulary, grammar, and usage each semester and will engage in ongoing preparation for the ACT plus Writing exam.
Credit Type	English		
Grade Level		11	
Credit	½ credit per semester		
Course Length	Year Long Course

Prerequisite	None		

Course Name: Enriched Junior English

Course Number	421551	421552	Enriched Junior English covers American Literature in a holistic frame of thought. Students have the opportunity to study literature (the essay, short story, poem, drama, novel, and historical nonfiction) as a part of the humanities while teachers challenge them to think, discuss/speak, read, and write on the literal, interpretive, and evaluative levels. Presented chronologically, the course covers American literature beginning with the 1600's and ending in contemporary literature. In addition, students study vocabulary, grammar and usage each semester and will engage in ongoing preparation for the ACT plus Writing exam. Enriched Junior English is designed to challenge students in an environment filled with rigor and high expectations. Students will read additional texts, engage in deep discussion of literature from various literary approaches, and complete multiple academic writings designed to challenge and prepare participants for both college and career opportunities.

Meets Hathaway Success Curriculum	Enriched Junior English		
Prerequisite	None		

Course Name: AP English Language and Composition

Course Number	461641	461642	Following the College Board’s suggested curriculum designed to parallel college-level English courses, AP English Language and Composition courses expose students to prose written in a variety of periods, disciplines, and rhetorical contexts. These courses emphasize the interaction of authorial purpose, intended audience, and the subject at hand, and through them, students learn to develop stylistic flexibility as they write compositions covering a variety of subjects that are intended for various purposes. Student are strongly encouraged to take the AP Exam. Summer reading may be required. Students may be required to purchase texts. College credit varies by post-secondary institution.
Credit Type	English		
Grade Level		11	
Credit	½ credit per semester

Course Level	Enriched		
Meets Hathaway Success Curriculum	AP English Language and Composition		
Prerequisite	None		

Course Name: Senior Literature

Course Number	433600		Senior Literature focuses on the study of various periods of literature within the British Canon. Each student will engage in the close reading and discussion of various works within at least three periods, including assigned works of poetry, drama, prose, and supporting informational texts. Authors may include, but are not limited to William Shakespeare, Geoffrey Chaucer, William Wordsworth, John Keats, George Orwell and T.S. Eliot. The ultimate goals for Senior Literature is for students to understand, interpret, and apply literature at personal and academic levels.

Prerequisite	None		

Course Name: Senior English

Course Number	434600		This semester will focus on three areas: speech, senior project, and rhetorical critique. During this semester, students will be instructed in all aspects of formal public speaking in order to gain insight into the skill of oral communication. Various speeches will be written, discussed and performed in the course of the semester. Students will also complete their senior project during this semester, including all reading, writing, journaling or hands-on work necessary to bring the project to completion in order to ensure college and career readiness for all students.
Credit Type	English

Course Name: AP English Literature and Composition

Course Number	405641	405642	Following the College Board’s suggested curriculum designed to parallel college-level English courses, AP English Literature and Composition courses enable students to develop critical standards for evaluating literature. Students will closely study various works of British and American literature; interpret and defend literary observations, both orally and in writing; and create a solid base understanding of classic literature. The course also includes intense preparation for each section of the AP English Literature and Composition exam. Student are strongly encouraged to take the AP Exam. Summer reading may be required. College credit varies by post-secondary institution.

Prerequisite	None		

Course Name: College English 1010

Course Number	452620		English 1010 is designed to study, practice and master the art of writing formal essays. Students will (1) write voraciously; (2) express original thought on diverse topics; (3) bring drafts of essays to class for peer revision and editing; (4) participate in genuine and poignant discussion and feedback about writing efforts; (5) create multiple drafts of essays in pursuit of quality work and (6) submit professional quality, academic essays. With consistent practice and participation, students will learn the skills necessary to practice the writing process as an individual endeavor and use standard, formal English. *****The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.

Course Name: Introduction to Journalism

Course Number	481411		481412		Get an early start on the basics of Journalism. This class is the foundation for the knowledge and skills necessary for both school yearbook and newspaper. Students are required to learn the journalist writing style, use of computers and desktop publishing. Photography, interviewing and computer skills are also paramount in this course. This class is required to continue in the journalism department. Serious workers need apply!
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General

Prerequisite	None				

Course Name: Yearbook

Course Number	436901	436902			May take this class more than once for elective credit Be a part of history by creating and publishing the yearbook. The school's 256-page annual is a product students cherish for a lifetime. A yearbook student works feverishly on meeting deadlines, and more deadlines, and more deadlines. Photography, layout design, and computer skills are all necessities of this course. Soliciting advertising is also a major component. More than anything, commitment to a quality product, built with integrity and journalistic ethics is a MUST. This class is high-stress, yet highly rewarding. Slackers need not apply, as this class functions at an enriched level course.
Credit Type	Elective				
Grade Level		10	11	12	
Credit	½ credit per semester

Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	Intro to Journalism or Instructor/Admin approval				

Course Name: Newspaper

Course Number	496301	496302			May take this class more than once for elective credit Today's media is alive in newspaper. Wanna-be paparazzi are welcome to Newspaper Media class, but bring your hard work ethic and commitment. Be a part of what's happening by keeping an ear open for news and articles of interest to our school. Students are required to produce publish-ready work to be presented online, in-the-building edition, and city-wide publications. There are many opportunities for your work to be published for a large audience. It is a MUST to have quality writing skills, to meet deadlines, and to possess the ability to accept editing and criticism as you learn. Journalistic writing is not like any other, in that it is unique in its unbiased point of view. Marketing a newspaper is also a necessary evil, and students are required to solicit advertising for our product. Overall, hard workers will keep busy in this newsroom-like atmosphere. You must love to write, you must love to talk to people, and you must love to work hard.
Credit Type	Elective

~NCAA approved - Mathematics

The CCSD math departments are committed to the implementation of the CCSS Mathematical Practices, as outlined below. These practices define the culture of the CCSD math classrooms.

MATH Standards for Mathematical Practice in Action

Practice	Sample Student Evidence	Sample Teacher Action
1. Make sense of problems and persevere in solving them.	<ul style="list-style-type: none"> *Display sense-making behaviors. *Show patience and listen to others. *Turn and talk for first steps or generate a solution plan. *Analyze information in problems. *Use and recall multiple strategies. *Self-evaluate and redirect *Assess the reasonableness of process and answer. 	<ul style="list-style-type: none"> *Provide open-ended problems. *Ask probing questions. *Probe student responses. *Promote and value discourse. *Promote collaboration. *Model and accept multiple approaches.
2. Reason abstractly and quantitatively.	<ul style="list-style-type: none"> *Represent abstract and contextual situations symbolically. *Interpret problems logically in context. *Estimate for reasonableness *Make connections, including real-life situations. *Create and use multiple representations. *Visualize problems. *Put symbolic problems into context. 	<ul style="list-style-type: none"> *Model context to symbol and symbol to context. *Create problems such as, "What word problem will this equation solve." *Give real-world solutions. *Offer authentic performance tasks. *Place less emphasis on the answer. *Value invented strategies *Think aloud
3. Construct viable arguments and critique the reasoning of others.	<ul style="list-style-type: none"> *Question others. *Use examples and nonexamples. *Support beliefs and challenges with mathematical evidence. *Form logical arguments with conjectures and counterexamples. *Use multiple representations for evidence. *Listen and respond to others well. *Use precise mathematical vocabulary. 	<ul style="list-style-type: none"> *Create a safe and collaborative environment. *Model respectful disclosure behaviors. *Provide find-the-error problems. *Promote student-to-student discourse (do not mediate discussion). *Plan effective questions or Socratic formats. *Provide time and value discourse.
4. Model with mathematics.	<ul style="list-style-type: none"> *Connect math (numbers and symbols) to real-life situations. *Symbolize real-world problems with math. *Make sense of mathematics. *Apply prior knowledge to solve problems. *Choose and apply representations, manipulatives, and other models to solve problems. *Use strategies to make problems simpler *Use estimation and logic to check the reasonableness of an answer. 	<ul style="list-style-type: none"> *Model reasoning skills, *Provide meaningful, real-world authentic, performance-based tasks. *Make appropriate tools available. *Model various modeling techniques. *Accept and value multiple approaches and representations.
5. Use appropriate tools strategically.	<ul style="list-style-type: none"> *Choose appropriate tool(s) for a given problem. *Use technology to deepen understanding. *Identify and locate resources. *Defend mathematically the choice of a tool. 	<ul style="list-style-type: none"> *Provide a toolbox at all times with all available tools; students then choose as needed. *Model tool use, especially technology for understanding.
6. Attend to precision.	<ul style="list-style-type: none"> *Communicate (orally and in writing) with precise vocabulary. *Carefully formulate questions and explanations (not retelling steps) *Decode and interpret the meaning of symbols. *Pay attention to units, labels, scale, and so forth. *Calculate accurately and effectively. *Express answers within context when appropriate. 	<ul style="list-style-type: none"> *Model problem-solving strategies. *Give explicit and precise instructions. *Ask proving questions. *Use English language arts strategies of decoding, comprehending, and text-to-self connections for interpreting symbolic and contextual math problems. *Guided inquiry.
7. Look for and make use of structure.	<ul style="list-style-type: none"> *Look for, identify, and interpret patterns and structures. *Make connections to skills and strategies previously learned to solve new problems and tasks. *Breakdown complex problems into simpler and more manageable chunks. *Use multiple representations for quantities. *View complicated quantities as both a single object and a composition of objects. 	<ul style="list-style-type: none"> *Let students explore and explain patterns. *Use open-ended questioning. *Prompt students to make connections and choose problems that foster connections. *Ask for multiple interpretations of quantities.
8. Look for and express regularity in repeated reasoning.	<ul style="list-style-type: none"> *Design and state shortcuts. *Generate rules from repeated reasoning or practice (e.g., integer operations) *Evaluate the reasonableness of intermediate steps. *Make generalizations. 	<ul style="list-style-type: none"> *Provide tasks that allow students to generalize *Don't teach steps for rules, but allow students to explore and generalize to discover and formalize. *Ask deliberate questions. *Create strategic and purposeful check-in-points.

ALL Students must pass Algebra I.

The CCSD Graduation requirement is that all students will successfully complete at least 3 (three) total years of mathematics during their 9th thru 12th grades years, including Algebra I.

- Mathematics is included in the high school curriculum to give the students an understanding of the world of numbers and space, as well as an appreciation for their interests, needs and plans, the selection and content of courses offered vary from basic to sophisticated.
- Mathematical Academic Competencies are specified intellectual skills that are essential for effective work in all fields of college study. Math provides the link to all disciplines.
- The SAT Test and/or ACT Test results are used by college admissions as measurement and predictor of student successes. The math portion of the SAT/ACT specifically measures the candidate's preparation in three areas: Arithmetic Computation, Algebra, and Geometry.

Mathematics Courses

Course Name: Linear Algebra

Course Number	203301		203302		Linear Algebra is an intervention course for students that have been recommended by their teacher or have incomplete Pre-Algebra or Algebra I credit. It combines the study of some pre-algebra and algebra topics with introductory geometry topics. This course includes the study of formulas, algebraic expressions, first-degree equations and inequalities, the rectangular coordinate system, area, perimeter, and volume of geometric figures, and properties of triangles and circles.
Credit Type	Math				
Grade Level	9	10	11		
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	Basic				
Meets Hathaway Success Curriculum	Linear Algebra				
Prerequisite	None				

Course Name: Algebra I - REQUIRED

Course Number	211911		211912		Algebra I is the first course in a five-year sequence of college preparatory mathematics courses. Algebra I aims to deepen and extend student understanding built in previous courses by focusing on developing fluency with solving linear equations and inequalities and systems; extending these skills to solving quadratic and exponential functions; exploring functions, including sequences, graphically, numerically, symbolically and verbally; and using regression techniques to analyze the fit of models to distributions of data.
Credit Type	Math				
Grade Level	9	10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Algebra I				
Prerequisite	Pre-Algebra (full credit earned)				

Course Name: Geometry

Course Number	221401		221402		Geometry is the second course in a five-year sequence of college preparatory mathematics courses. This course aims to formalize and extend the geometry that students have learned in previous courses. This is accomplished by focusing on establishing triangle congruence criteria using rigid motions and formal constructions, building a formal understanding of similarity based on dilations and proportional reasoning, developing the concepts of formal proof, exploring the properties of two and three-dimensional objects, working within the rectangular coordinate system to verify geometric relationships, proving basic theorems about circles, and using the language of set theory to compute and interpret probabilities for compound events.
Credit Type	Math				
Grade Level	9	10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Geometry				
Prerequisite	Algebra I (full credit earned) or Integrated Math I (full credit earned)				

Course Name: Enriched Geometry

Course Number	233211		233212		Preference: B- or higher in Algebra I with instructor approval This course is an extension of the Geometry course listed previously. As with Geometry, students in Enriched Geometry will apply and extend what they have learned in previous courses. This course augments the content and rigor of Geometry including all of the topics and skills listed under Geometry as well as an in depth exploration of solids, circles, conic sections, and advanced geometric theories and applications. This class is to be taken in place of Geometry.
Credit Type	Math				
Grade Level	9	10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Enriched Geometry				
Prerequisite	Algebra I (full credit earned) or Integrated Math I (full credit earned)				

Course Name: Algebra II

Course Number	241501	241502			<p>The Algebra II curriculum is difficult without having previously taken Geometry. However, with teacher recommendation, this is where students may double up by taking Geometry and Algebra II concurrently.</p> <p>Algebra II is the third course in a five-year sequence of rigorous college preparatory mathematics courses. Algebra II aims to apply and extend what students have learned in the previous two core connections courses by focusing on finding connections between multiple representations of functions, transformations of different function families, finding zeros of polynomials and connecting them to graphs and equations of polynomials. Students in this class will use problem solving strategies, questioning, investigating, analyzing critically, gathering and constructing evidence, and formulating rigorous arguments to justify their thinking.</p>
Credit Type	Math				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Algebra II				
Prerequisite	Algebra I and Geometry (full credit earned) or Integrated Math I and Math II (full credit earned)				

Course Name: Enriched Algebra II

Course Number	242601	242602			Preference: B- or higher in Geometry with instructor approval This course is an extension of the Algebra II course listed previously. As with Algebra II, students in Enriched Algebra II will apply and extend what they have learned in previous courses. This course augments the content and rigor of Algebra II including all of the topics and skills listed under Algebra II as well as modeling periodic phenomena with trigonometric principles and understanding the role of randomness and the normal distribution in making statistical conclusions. This class is to be taken in place of Algebra II.
Credit Type	Math				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	Enriched				
Meets Hathaway Success Curriculum	Enriched Algebra II				
Prerequisite	Algebra I and Geometry (full credit earned) or Integrated Math I and Math II (full credit earned)				

Course Name: Pre-Calculus

Course Number	261611	261612		<p>This course combines the trigonometric, geometric, and algebraic techniques needed to prepare students for the study of calculus. A key component of this course is to strengthen students’ conceptual understanding and mathematical reasoning in solving complex problems. Topics covered in this course include the fundamental operations of algebra, graphs, equations, matrices, exponents, logarithms, basic trigonometric functions, trigonometric equations, right triangles, oblique triangles, vectors, complex numbers, conics, and graphs.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>
Credit Type	Math			
Grade Level		11	12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	General			
Meets Hathaway Success Curriculum	Pre-Calculus			
Prerequisite	<p>Algebra I, Geometry, and Algebra II (full credit earned) or Integrated Math I, Math II, and Math III (full credit earned)</p> <p>For college credit: Math 1400 - 23+ on the Math portion of ACT test or qualifying score of 240 or better on Next Generation Accuplacer exam</p> <p>Math 1405 (for students placed 2nd semester only) – Math 1400 or 25+ on the Math portion of ACT test or qualifying score of 260 or better on Next Generation Accuplacer exam</p>			
Concurrent Enrollment	<p>MATH 1400 – Pre-Calculus (1st semester) – 4 college credits</p> <p>MATH 1405 Trigonometry (2nd semester) – 3 college credits</p>			

Course Name: Enriched Pre-Calculus

Course Number	263611	263612		Preference: B- or higher in Enriched Algebra II or equivalent with instructor recommendation. Enriched Pre-Calculus is designed as the fourth course in a five-year sequence of college preparatory mathematics. In addition to covering all of the key concepts found in traditional trigonometry, pre-calculus, or math analysis courses, this course emphasizes several big ideas that form a foundation for calculus and other college mathematics curricula. These ideas include transformation of functions, periodic functions and their graphs, area under the curve as a foundation for integration, inverses, exponentials, logarithmic equations and applications, limits to infinity and at a point, properties of functions including continuity, an introduction to curve analysis, average rates of change and instantaneous rates of change as a foundation for derivatives, algebraic fluency and simplification techniques and mathematical modeling. Students will also explore matrices, vectors, and conics. ***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.
Credit Type	Math			
Grade Level		11	12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	Enriched			
Meets Hathaway Success Curriculum	Enriched Pre-Calculus			
Prerequisite	Algebra I, Geometry, and Algebra II (full credit earned) or Integrated Math I, Math II, and Math III (full credit earned) For college credit: Math 1400 - 23+ on the Math portion of ACT test or qualifying score of 240 or better on Next Generation Accuplacer exam Math 1405 (for students placed 2 nd semester only) – Math 1400 or 25+ on the Math portion of ACT test or qualifying score of 260 or better on Next Generation Accuplacer exam			
Concurrent Enrollment	MATH 1400 – Pre-Calculus (1 st semester) – 4 college credits MATH 1405 Trigonometry (2 nd semester) – 3 college credits			

Course Name: College Intermediate Algebra

Course Number	246331	246332	NOTE: There is NOT college credit with this course. Functions and their application to the real world, graphing of linear equations and inequalities, solving simple linear equations and inequalities, solving systems of linear equations, manipulation of polynomial expressions, manipulation of rational expressions, solving rational expressions, manipulating and solving equations which involve radical and rational exponents, use of variation to solve application problems, solve and graph quadratic equations, manipulate and solve equations involving logarithms and exponential behavior, and use unit analysis to assess the appropriate unit to be placed on the numerical solution to an application problem.
Credit Type	Math		
Grade Level		12	
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	None		
Course Level	General		
Meets Hathaway Success Curriculum	College Intermediate Algebra		
Prerequisite	Algebra I, Geometry, and Algebra II (full credit earned) or Integrated Math I Math II, and Math III (full credit earned)		

Course Name: Financial Algebra I

Course Number	221201	In this course students have the opportunity to apply algebra concepts to a variety of business and financial situations including the stock market (data and charts, stock transactions, and dividend income), modeling a business (scatterplots, linear regressions, supply and demand, expense and revenue function, and break even analysis), banking services (checking accounts, reconciling a bank account, savings accounts, compound interest, and future value vs. present value), consumer credit (loans, loan calculations, credit cards, and average daily balance), and automobile ownership (classified ads, buying/selling a car, automobile insurance, automobile depreciation, and driving safety).
Credit Type	Math	
Grade Level	12	
Credit	½ credit	
Course Length	Semester Course	
Fee	None	
Course Level	General	
Meets Hathaway Success Curriculum	Financial Algebra I	
Prerequisite	Algebra I and Geometry (full credit earned), and Algebra II (recommended) or Integrated Math I and Math II (full credit earned), and Math III (recommended)	

Course Name: Financial Algebra II

Course Number	221202	As with Financial Algebra I, students apply algebra concepts to a variety of business and financial situations including the basics of employment (looking for employment, pay periods and hourly rates, commissions, royalties, employee benefits, social security, and Medicare), income taxes (tax tables, worksheets, schedules, income statements, and tax forms), independent living (finding a place to live, reading floor plans, mortgage application process, purchasing a home, and rentals), planning for retirement (income from savings, social security benefits, pensions, and life insurance), and preparing a budget (utility expenses, electronic utilities, charting a budget, cash flow, and budgeting)
Credit Type	Math	
Grade Level	12	
Credit	½ credit	
Course Length	Semester Course	
Fee	None	
Course Level	General	
Meets Hathaway Success Curriculum	Financial Algebra II	
Prerequisite	Algebra I and Geometry (full credit earned), and Algebra II (recommended) or Integrated Math I and Math II (full credit earned), and Math III (recommended)	

Course Name: Statistics I

Course Number	256451	Students will learn to use basic statistical procedures, data analysis strategies, and fundamental properties of probability. Students will use these concepts to analyze situations and experiments for decision-making and predicting outcomes. In this course students will explore linear regressions, covariance and correlation. Students will use technology to organize information and analyze problems using tables, graphs and charts.
Credit Type	Math	
Grade Level	12	
Credit	½ credit	
Course Length	Semester Course	
Fee	None	
Course Level	General	
Meets Hathaway Success Curriculum	Statistics I	
Prerequisite	Algebra I, Geometry, and Algebra II (full credit earned) or Integrated Math I, Math II, and Math III (full credit earned)	

Course Name: Statistics II

Course Number	256452	Students will build on the concepts and skills developed in Statistics I as they continue to work with event probability, normal probability distribution, collection and description of data, frequency tables and graphs, random variables, and random sampling. Additional topics will include central limit theorem, confidence intervals, proving independence, and hypothesis testing.
Credit Type	Math	
Grade Level	12	
Credit	½ credit	
Course Length	Semester Course	
Fee	None	
Course Level	General	
Meets Hathaway Success Curriculum	Statistics II	
Prerequisite	Algebra I, Geometry, and Algebra II (full credit earned) or Integrated Math I, Math II, and Math III (full credit earned)	

Course Name: Calculus

Course Number	263631	263632	<p>This course introduces differential calculus through topics including limits, derivatives, and integrals of algebraic and transcendental functions of one variable with applications. Students will develop their reading, writing, and questioning skills, as well as their ability to work cooperatively.</p> <p>College credit is available through Gillette College. These scores must be obtained prior to the beginning of the school year. Also, the course must be taken by a teacher certified to teach concurrent enrollment courses. A list of qualified teachers is maintained in the Guidance Office.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>
Credit Type	Math		
Grade Level		12	
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	None		
Course Level	General		
Meets Hathaway Success Curriculum	Calculus		
Prerequisite	Algebra I, Geometry, Algebra II or Enriched Algebra II, and Pre-Calc or Enriched Pre-Calc (full credit earned) Math 1405 OR 25 on the Math portion of ACT test and a qualifying score of 280 or better on Next Generation Accuplacer exam		
Concurrent Enrollment	MATH 2200 – Calculus I – 4 college credits		

Course Name: AP Calculus AB

Course Number	268521	268522	Preference: B- or higher in Enriched Pre-Calculus or equivalent with instructor recommendation. AP Calculus AB is the fifth course in a five-year sequence of college preparatory mathematics. This course covers all content required for the AP Calculus AB Exam, including optimization, limits, differential equations, exponential functions, the relationship between distance and velocity, piecewise functions, volumes of revolution, volumes by slicing, and the Fundamental Theorem of Calculus. Students will take the AP exam in early May. Any student who receives a 3, 4 or 5 on the exam is eligible for college math credit at most universities.
Credit Type	Math		
Grade Level		12	
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	Fee required for AP test		
Course Level	Enriched		
Meets Hathaway Success Curriculum	AP Calculus AB		
Prerequisite	Algebra I, Geometry, Algebra II or Enriched Algebra II, and Pre-Calc or Enriched Pre-Calc (full credit earned)		

Course Name: AP Calculus BC – Independent Study

Course Number	268531	268532	This course covers all content required for the AP Calculus AB Exam, as well as Calculus II concepts including convergence tests, logistic equations, polar area, vectors, polar curves, polynomial approximations, and error. Students will take the AP Calculus BC exam in early May. Any student who receives a 3, 4 or 5 on the exam is eligible for college math credit at most universities.
Credit Type	Math		
Grade Level		12	
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	Fee required for AP test		
Course Level	Enriched		
Meets Hathaway Success Curriculum	AP Calculus BC		
Prerequisite	Algebra I, Geometry, Algebra II or Enriched Algebra II, Pre-Calc or Enriched Pre-Calc, and AP Calculus AB (full credit earned)		

Physical Education & Health

Campbell County School District requires 2 Physical Education credits to graduate. Health Literacy must be .5 credits

You are able to repeat classes for credit, but you are not able to take more than one PE class per semester.

Physical Education Courses

Course Name: High School PE

Course Number	321400				May take this class more than once for elective credit This course focuses on students becoming knowledgeable and participating in a variety of activities which are fitness based. Students will learn the skills which are necessary to becoming lifelong participants in physical activity. Focus will be on a combination of field, team, individual, and lifetime sports.
Credit Type	Physical Education				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	A small fee may be associated with this course per activity				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	None				

Course Name: Sports Training

Course Number					348000				May take this class more than once for elective credit This course is an introduction to sports training for those who wish to push themselves to enhance their performance. This is a higher intensity class focusing on muscular strength, power, and endurance through the use of weights, speed, and agility. Specific sport training and nutrition will also be introduced. Instructor approval or participation in a competitive sport is needed to enroll in this class.
Credit Type					Physical Education				
Grade Level					9	10	11	12	
Credit					½ credit				
Course Length					Semester Course				
Fee					None				
Course Level					General				
Meets Hathaway Success Curriculum					No				
Prerequisite					Competitive sport or instructor approval				

Course Name: Sports Training II

Course Number	348010				May take this class more than once for elective credit This course is a more advanced sports training for those who wish to push themselves to enhance their performance. Students will be pushed to develop muscular strength, power, and endurance through the use of weights, speed, and agility. Nutrition and sport specific training will be emphasized. Students must have passed Sports Training I with a B or have instructor approval.
Credit Type	Physical Education				
Grade Level		10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	Pass Sports Training I or instructor approval				

Course Name: Lifetime Personal Fitness

Course Number	349000				May take this class more than once for elective credit This course promotes the development and maintenance of personal fitness, focusing on healthy living and lifestyle choices. Cardiovascular fitness, muscular endurance and strength, flexibility, coordination, agility, and nutrition will be stressed. Course content includes fitness assessment, regular physical activity, classroom sessions, and the benefits of exercise.
Credit Type	Physical Education				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	None				

Course Name: Outdoor Education

Course Number	321700				May take this class more than once for elective credit This course is designed to introduce students to lifetime and recreational activities. These activities could include but are not limited to: bicycling, kayaking and canoeing, ropes course activities, rock climbing, horseshoes, orienteering, camping, winter survival, archery, fly tying, fly fishing, golf, frisbee golf, ice skating and bowling. Students will be required to pay for some activities.
Credit Type	Physical Education				
Grade Level		10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	A fee will be associated with this course for some activities.				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	None				

Course Name: Lifeguard Training

Course Number	359101				May take this class more than once for elective credit This course provides the skills to effectively prevent and respond to water emergencies, arming you with the skills and knowledge to respond to a variety of scenarios. You will learn how quick response time and effective preparation are vital to being a lifeguard while also understanding the crucial elements in helping to prevent drownings and injuries. With passing of the skills, final scenarios, and written test, you qualify for American Red Cross Lifeguarding certification with First Aid, CPR and AED training. Students will spend half their time in the classroom and the other half in the pool. Taught at Aquatic Center Students will need to provide their own transportation.
Credit Type	Physical Education				
Grade Level		10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	If certification is desired, student must pay certificate fee				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	Must be 15 years old				

Course Name: Water Safety Instructor

Course Number	359102				May take this class more than once for elective credit This course focuses on the skills needed to teach courses and make presentations to swimmers of every age and ability. You can help recreational swimmers meet their goals, refine their skills, and stay safe in, on, and around the water: water safety, emergency response protocols, hydrodynamics, basic aquatic skills, and aquatic fitness and training for people of any age. There will be a required fee to cover the cost of the American Red Cross book and certification. Students will spend half their time in the classroom and the other half in the pool. Taught at Aquatic Center Students will need to provide their own transportation.
Credit Type	Physical Education				
Grade Level		10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	Must purchase the American Red Cross Book. If certification is desired, student must pay certificate fee				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	Must be 16 years old				

Course Name: Health Literacy

Course Number	311300				This course provides a comprehensive, planned program to positively influence the knowledge, skills, attitude and behaviors of individuals relating to health, with a goal of leading students to a healthy lifestyle. Topics covered include decision making, goal setting, communication, stress management, conflict resolution, suicide awareness and prevention, consumer and community health, communicable and chronic disease, environmental health, alcohol, tobacco and other drugs, nutrition, injury prevention, and safety. This course is a graduation requirement.
Credit Type	Physical Education				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	None				

Elective Credit Course

Course Name: Athletic Training

*****This course is only taught at Campbell County High School*****

Course Number	381411	381412			<p>This course is designed for the student who is interested in athletic training, physical therapy, nursing, coaching, etc. Students will be introduced to the recognition, prevention, and treatment of common athletic injuries as well as legal and administration issues.</p> <p>This course does not count as a PE credit.</p> <p><u>This class requires after school observation hours.</u></p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>
Credit Type	Elective				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	No				
Prerequisite	None				
Concurrent Enrollment	KIN 1052 Intro to Athletic Training-3 college credit				

Science

Graduation Requirement – 3 years (including Biology I)
Hathaway requirement: (Please reference page 5)

Maximum one credit of additional Science

Provisional Opportunity – 3 years in any combination of Hathaway strands

Opportunity – 4 years in any combination of Hathaway strands

Performance – 4 years in any combination of Hathaway strands

Honors – 4 years in any combination of Hathaway strands

Life Science Classes

Course Name: Biology I

57

Course Number	111401	111402			Successful completion of Biology I is a graduation requirement for Campbell County School District. Biology I is a yearlong exploration of the wonder and diversity of life on Earth. This course is an overview of various microbiological topics, including cells, chemistry of life, and heredity. Investigative experiments help students gain insight into the practices of scientists while applying the concepts taught within the class curriculum.
Credit Type	Science				
Grade Level	9	10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Biology I				
Prerequisite	As a freshman, you must have a teacher recommendation to take this course				

Course Name: Biology II

Course Number	111501	111502			Successful completion of Biology I is recommended. Biology II is a yearlong exploration of the wonder and diversity of life on Earth. This course is an overview of various macro biological topics, including ecology, change over time, and heredity. Investigative experiments help students gain insight into the practices of scientists while applying the concepts taught within the class curriculum.
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Biology II				
Prerequisite	Successful completion of Biology I				

Course Name: Environmental Science

Course Number	122601	122602			Students in Environmental Science study the natural environment of the earth and human’s roles and impacts in the environment. Students will study the hydrosphere, cryosphere, geosphere, and atmosphere separately and as an interrelated system. Then students will, through experimentation and hands-on modeling, study the role of humans in maintaining and changing these systems.
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Human Sustainability I				
Prerequisite	Freshman level science course				

Course Name: Human Anatomy and Physiology

Course Number	153611	153612		<p>In Human Anatomy and Physiology, students pursue an understanding of the structure and function of the human body. In this class, students will study the human body on a chemical, cellular, tissue, organ, and organ system level. They will also pursue an understanding of the structure and function of the human body as it relates to personal interests and health. Students will reinforce their learning through hands-on laboratory and modeling experiences.</p>
Credit Type	Science			
Grade Level		11	12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	Enriched			
Meets Hathaway Success Curriculum	Biology II			
Prerequisite	Successful completion of Biology I			

Course Name: AP Biology

Course Number	144741	144742		AP Biology is a fast paced, academically demanding course. Students cultivate their understanding through inquiry-based investigations as they explore the various biological topics: change overtime, cellular processes – energy and communication, genetics, information transfer, and ecology. Students who take this course must take the national AP Biology test in the spring. Successful performance on the test can lead to college credit depending on the score and the college or university of choice.
Credit Type	Science			
Grade Level		11	12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	Fee required for AP test			
Course Level	Enriched			
Meets Hathaway Success Curriculum	Biology II			
Prerequisite	Successful completion of Biology I			

Physical Science Classes

Course Name: Physical Science

Course Number	113901	113902	<p>This course is a study of matter and energy and the relationship between the two concepts. This course includes components of basic chemistry and physics in order to best study and model the concepts of matter and energy. This course is to serve as an introduction to the high school sciences by providing students with the skills necessary to prepare them for upper level science classes.</p> <p>Semester 1 – Physics Semester 2 – Chemistry</p>
Credit Type	Science		
Grade Level	9		
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	None		
Course Level	General		
Meets Hathaway Success Curriculum	Physical Science		
Prerequisite	8 th grade Science		

Course Name: Chemistry I

Course Number	132501	132502			Chemistry I is a yearlong science course structured around the science of matter. This course explores the atomic nature of matter, the periodic table, the nature of chemical bonds, chemical reactions, the role of electrons in the formation of chemical compounds, and the gas laws. Students will conduct investigative experiments to gain insight into the properties and behavior of matter. Modeling and application of science into everyday concerns is also a focus of this class.
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Chemistry I				
Prerequisite	None				

Course Name: Chemistry II

Course Number	133601	133602		The class is an excellent choice for students who enjoy chemistry and wish to further their study of matter and energy. This is an extension of Chemistry I designed with a strong emphasis on laboratory work and procedures. Students will explore advanced chemistry topics and reinforce general chemistry concepts.
Credit Type	Science			
Grade Level		11	12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	General			
Meets Hathaway Success Curriculum	Chemistry II			
Prerequisite	Successful completion of Chemistry I			

Course Name: AP Chemistry

Course Number	134741	134742		AP Chemistry is a fast paced, academically demanding course. Students who take this course must take the national AP Chemistry test in the spring. Successful performance on the test can lead to college credit depending on the score and the college or university of choice. The course curriculum is established by the Advanced Placement Program of the College Board. This course is much more demanding and complex than Chemistry I and II but the content learned will increase student success in college chemistry. Students interested in engineering and health fields may want to consider this class.
Credit Type	Science			
Grade Level		11	12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	Fee required for AP test			
Course Level	Enriched			
Meets Hathaway Success Curriculum	Chemistry II			
Prerequisite	Successful completion of Chemistry I and Algebra II			

Course Name: Physics

Course Number	143601	143602			<p>Physics is a demanding class that introduces students to the physical laws which govern the universe. The course is a hands-on science class; students participate in activities and demonstrations designed to help them understand how the laws of physics affect their lives. This course is math intensive. Students will develop an understanding of physics concepts and develop problem-solving skills through the completion of daily homework, classroom activities, unit exams, and formal lab reports. Two projects will be assigned each semester, which will require constructing various devices that demonstrate physical laws.</p>
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Physics I				
Prerequisite	Algebra II (concurrent or completed)				

Course Name: AP Physics

Course Number	144641	144642		AP Physics is a fast paced, yearlong, academically demanding course. AP Physics is a hands-on science class. Students participate in activities and demonstrations that help them understand how the laws of physics affect their lives. This course is math intensive. Students will develop an understanding of physics concepts and problem solving skills through the completion of daily homework, frequent quizzes, classroom activities, unit exams, and formal lab reports. Completion of the course requires participation in the national AP Physics exam in the spring. The test requires a fee. Successful performance on the exam can lead to college credit depending on exam scores and the college or university requirements. The course curriculum is established by the Advanced Placement program of the College Board.
Credit Type	Science			
Grade Level		11	12	
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	Fee required for AP test

Meets Hathaway Success Curriculum	Physics II			
Prerequisite	Successful completion of Physics and Algebra II or concurrent			

Earth and Space Science Classes

Course Name: Earth Science

Course Number	112901	112902			This course explores the nature and relationship between the Earth’s internal systems and the effects that change to those systems have on the biosphere. General Earth Science includes learning about the Earth system and applying technology to monitor human impact and needs. This course delves into the nature of science and includes scientific modeling and inquiry opportunities through technology.
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Geology I				
Prerequisite	None				

Course Name: Astronomy

Course Number	153300				Students will explore the origin and organization of the universe and the place of humans in it. Students will study various celestial components, the classification of galaxies, the life cycle of a star and classification of different types of stars. Students will learn the basic forces and types of energy sustaining the celestial bodies. Students will investigate methods of determining stellar distances, methods of identifying stellar composition, characteristics of light and the various types of matter that make up the universe.
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Additional Science				
Prerequisite	None				

Course Name: Astronomy II

Course Number	153400				Students will continue to explore the organization of the universe and our place in it. They will further study various celestial components. Students will learn the basic forces and types of energy sustaining the celestial bodies. Students will apply the knowledge gained in both Astronomy I and II to real world applications.
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	Additional Science				
Prerequisite	None				

Additional Science Classes

Course Name: Forensic Science

Course Number	122600				Students will explore the field of forensic science through whole group and small group investigations. This class will also contain a component of computer programming to create tools for data collection. Topics covered will range from Entomology to Cyber-forensics.
Credit Type	Science				
Grade Level		10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None

Social Studies Required Courses

Course Name: World Cultures

Course Number	500901		500902	World Cultures explores the physical and cultural geography of Australia/Oceania, Africa, the Middle East and Asia including China and Japan. The course examines historical issues that have impacted these geographic regions as well as current events. This course utilizes primary documents, research databases and hands on activities including culturally relevant games, artwork and research projects.
Credit Type	Social Studies			
Grade Level	9	10		
Credit	½ credit per semester			
Course Length	Year Long Course			
Fee	None			
Course Level	General			
Meets Hathaway Success Curriculum	Geography			
Prerequisite	None			

Course Name: World History

Course Number	510401	510402	World History covers the development of civilization from prehistoric times through the present, explaining why the world is the way it is. The first semester examines beliefs, rulers, wars, and achievement from the early Sumerians and Egyptians to the incredible feats of the Greeks & Romans and then the middle Ages. The second semester explores the Renaissance, Age of Absolutism, the 1800's and both world wars.
Credit Type	Social Studies		
Grade Level	9	10	
Credit	½ credit per semester		
Course Length	Semester Course or Year Long Course

Course Name: Economics

Course Number	522410		<p>All seniors must take this course or AP Macroeconomics to fulfill their graduation requirements.</p> <p>Economics is concerned with the way individuals and nations choose to use scarce resources to satisfy their wants and needs. This course will help you understand how your spending affects what is produced in our nation as well as the world. Current economic conditions will be discussed through a variety of activities including playing an online simulation game about the stock market. Other investment tools will be discussed as well as other topics of interest to high school seniors including money, banking, debit cards, tax preparation, consumer legal issues, credit reports, and insurance. By taking this course you will gain a better understanding of our economy and you will be better able to function as a citizen, consumer, and worker.</p>

Course Name: AP Government and Politics

****This course is only taught at Campbell County High School****

Course Number	534600	<p>AP Government and Politics provides a college-level, nonpartisan introduction to key political concepts, ideas, institutions, policies, interactions, roles, and behaviors that characterize the constitutional system and political culture of the United States. Students study U.S. foundational documents, Supreme Court decisions, and other texts and visuals to gain an understanding of the relationships and interactions among political institutions, processes, and behavior. They also engage in disciplinary practices that require them to read and interpret data, make comparisons and applications, and develop evidence-based arguments. In addition, they complete a political science research or applied civics project.</p>

Course Name: Sociology

Sociology

Course Number	561310				Sociology is the scientific study of human groups. This course will cover structure and functions of groups and the consequences, which result from the activities of various groups. Sociology also looks at individuals and the process by which they fit into society. This course will cover how groups relate to one another, how they change and what enables one group to survive and prosper while others decline and disappear. Some of our current social problems will also be explored.

Course Name: Justice

Course Number	525200			Justice is a look at the criminal justice and law enforcement systems. This class will be a great fit for any student, but especially if they are considering a career in the legal or law enforcement area. Students will learn the foundations of crime solving, law enforcement, and our current legal system through the study of historic criminal cases. Students will be expected to complete projects and research, take notes, examine evidence, solve mock crime scenes, and provide motives and alibi possibilities. In addition, students will have presentations from local law enforcement each week to explore all areas of the field. The Justice curriculum meets academic standards, but is also designed to be engaging and intriguing.

Course Name: Watercolor I

Course Number	656300				Watercolor I studies examples of past watercolors in addition to painting exercises, working with color theory and understanding value. Although watercolor is a material, it has proven to be one of the more difficult media for artists to master. Therefore exercises in value, color intensity, glaze buildups (washes), textures, and other water mediums are covered in the class to produce the charming luminosity that is so special to watercolor.

Course Name: Steel Drum Ensemble

Course Number	612711		612712		May take this class more than once for elective credit This class is designed for the beginning student who wishes to learn how to play instruments in a steel drum ensemble. Steel drums, or Steel “pans’ are a relatively new instrument that originated in the tiny island nation of Trinidad and Tobago. The class will spend time on scales, etudes, history of the instrument, solo and ensemble literature, and appropriate level music written for the steel drum ensemble. Drum set players wishing to play in this group should have a minimum of 2 years drum set playing experience, and be willing to learn a new style of drum set playing. The steel drum ensemble will perform at various concerts throughout the year, and these concerts/master-classes/rehearsals are a required part of participation in the class. Occasional after school rehearsals/sectionals/performances are required. Students will be required to purchase a set of steel drum mallets for approx. \$20 which they will use throughout the course of the semester.

Course Name: Computer Aided Drafting and Design (CADD)

Course Number	860301	860302			<p>Computer Aided Drafting & Design will provide the student with the basic introduction to the knowledge and skills needed for future potential Computer Aided Drafting & Design work. You will be exposed to areas of the Drafting and Design world such as print reading, measuring, layout, and dimensioning standards. Areas of the class might also include Computer Aided Drafting & Design applicable areas such as electronics, civil or mechanical engineering, architecture, GIS, or manufacturing. This is the introductory level course that will expose you to the basic elements of using a Computer Aided Drafting & Design, both 2D and 3D. This class will cover basic drawing types such as isometric, orthographic, and architectural layout and design while using the Computer Aided Drafting & Design system and basic sketching techniques.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>

Prerequisite	Intro to Computer Science or Instructor/Administration approval			

Course Name: Computer Science (CS)

Course Number	714800				This is a class for students who would like to have fun learning more about computers, computer programs and the Windows operating system. Students do NOT need previous computer experience to take this class. This class will allow students to work with the various technologies they will need as they further their education or enter the fast paced and rapidly changing high tech world of work. The student uses the computer to do various activities like animation, electronic publishing, 2D & 3D graphics and many others.
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	None				
Recommendation	Interest in computers and technology; work responsibly with expensive equipment				

Course Name: Introduction to Engineering Design (IED)

Course Number	891901	891902			<p>Introduction to Engineering Design emphasizes the development of a “design.” Students will learn and apply an engineering design process and see how it is used in industry to manufacture a product. As a part of the engineering design process, computer modeling software will be used to produce, analyze and evaluate models of project solutions. Design concepts of form and function will be studied and state-of-the-art technology will be used to translate conceptual design to reproducible products. First semester topics include the engineering design process, sketching, viewing types of engineering drawings, dimensioning standards and conventions, precision measuring, career exploration and software instruction. Second semester topics include the engineering design process, auxiliary and section views, prototype creation software instruction and practice, product testing, analysis and marketing.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	None				
Recommendation	Interest in engineering, independent worker and strong math skills				
Concurrent Enrollment	ENTK 2525 – Parametric Modeling – 1 college credit				

Course Name: Engineering Design and Development (EDD)

Course Number	806951	806952	<p>Engineering Design and Development (EDD) is the capstone course for the Engineering Pathway and the PLTW high school engineering program. It is an engineering research course in which students work in teams to design and develop an original solution to a valid open-ended technical problem by applying the engineering design process. The course applies and concurrently develops secondary level knowledge and skills in mathematics, science, and technology.</p> <p>The Engineering Design and Development course of study includes: the design process, intellectual property, teamwork, project management, design specifications, concept testing, design proposal, virtual solutions, building a prototype, testing a prototype, documentation, presenting the process and results, researching problem identification, validation, justification, and test evaluation and refinement</p>
Credit Type	Elective		
Grade Level		12	
Credit	½ credit per semester		
Course Length	Year Long Course		
Fee	None		
Course Level	Enriched		
Meets Hathaway Success Curriculum	CTE		
Prerequisite	Prior PLTW course or instructor approval		
Recommendation	Interest in Engineering		

Course Name: Principles of Engineering (POE)

Course Number	815901	815902			<p>Principles of Engineering (POE), is a PLTW course. This survey course introduces students to the basics of the engineering fields. Topics include mechanisms and simple machines, energy sources, statics (the study of objects at rest like trusses and bridges), material properties, robotics, statistics and kinematics (the study of objects in motion like projectiles and self-propelled vehicles). They develop problem solving skills and apply their knowledge of research and design to create solutions to various challenges, document their work and communicate solutions. Several field trips and guest speakers will supplement the course. Recommended that Algebra I be completed prior to enrollment.</p> <p>Students with an interest in engineering and independent and strong math skills are helpful.</p>
Credit Type	Elective				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	None				

Course Name: Intro to Welding

Course Number	871400				<p>Major areas of study will include using the oxy-acetylene process to cut and braze mild steel, welding safety, welding careers and Shielded Metal Arc Welding (SMAW), also known as “stick welding.” This course will introduce students to the welding profession and prepare them for upper level welding courses offered in CCSD.</p> <p>Students are responsible for providing their own safety clothing.</p>
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	None				

Course Name: Welding I

Course Number	871401		871402		<p>Students will learn and practice basic arc welding SMAW, including electrode selections and proper usage, joint design and oxyfuel cutting techniques. Welding will be done on stock up to 3/8" in all positions. Cutting will be done on steel up to ¼" and 3/8" with hand and machine torches, power shear, and power saws. Instruction emphasizes safety and care of hand and power tools used in a welding shop.</p> <p>Students are responsible for providing their own safety clothing.</p>
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	None				

Course Name: Welding II

Course Number	872531	872532			<p>Welding II emphasizes specialized classroom and shop experiences, concerned with the use of both GMAW, SMAW, FEAU, and GTAW welding processes to weld metal parts. Special emphasis will be placed on safety of both equipment and personnel. This course is a continuation of Welding I. The purpose of this course is to develop in-depth welding skills for those students wishing to enter employment on a useful and productive basis. Welding will be practiced on stock up to 1" in horizontal, vertical and overhead positions. Air Carbon Arc Cutting and Plasma Gouging emphasized. This course is concurrently offered for college credit. The laboratory manual from the college course will be utilized throughout the course. Sophomores must obtain instructor approval to enroll in Welding II.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p> <p>Students are responsible for providing their own safety clothing.</p>
Credit Type	Elective				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	Enriched				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	Welding I and Instructor Approval				
Concurrent Enrollment	WELD 1700 – General Welding – 4 college credits				

Course Name: Woods Fabrication

Course Number	883001				<p>Introduce students to the field of cabinet construction. This will provide physical application of fundamental concepts and basic processes. Goals will be to develop working knowledge of basic areas of cabinet construction for entry level employment and home maintenance.</p> <p>**Course can only be taken ONCE.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	None				
Concurrent Enrollment	CNTK 1860 - Woodworking Fundamentals I 3 college credits				

Course Name: Woods Fabrication II

Course Number	883002				May take this class more than once for elective credit Advancing students to the field of cabinet construction and the woodworking process. This class will provide physical application of fundamental concepts and basic processes. Goals will be to develop working knowledge of advanced cabinet construction and woodworking processes. This knowledge will enhance student’s ability to obtain employment and home maintenance. ***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.
Credit Type	Elective				
Grade Level	9	10	11	12	
Credit	½ credit				
Course Length	Semester Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	Woods Fabrication I				
Concurrent Enrollment	CNTK 1865 – Woodworking Fundamentals II – 3 college credits				

Course Name: Construction Fabrication

Course Number	881401	881402			<p>This course is a one year introductory course for construction trades. Students will cover basic safety construction math, blueprint reading, safe use of hand and power tools, employability skills and communication skills. All these areas will be tested in the classroom and in the shop.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>
Credit Type	Elective				
Grade Level		10	11	12	
Credit	½ credit per semester				
Course Length	Year Long Course				
Fee	None				
Course Level	General				
Meets Hathaway Success Curriculum	CTE				
Prerequisite	Wood Fabrication				
Concurrent Enrollment	CNTK 1870 – Construction Materials and Methods – 3 college credits				

Course Name: Construction Technology

57

Course Number	882501	882502		<p>This is a one year class and a safety test must be passed. Construction Technology emphasizes the main points of residential house construction through classroom work and hands on activities. Students will build structures in the shop/yard.</p> <p>***** The Memorandum between Gillette College and Campbell County School District is renewed annually. Courses offered are subject to change at any time at the Gillette College discretion.</p>
Credit Type	Elective			
Grade Level		11	12

~NCAA approved – Additional Core Courses

The primary goals of the World Language Department are to enable students to use the target language in authentic real-life situations and to develop skills in the three modes of communication: **Interpersonal** (spontaneous two-way communication with the opportunity for negotiation), **Interpretive** (culturally appropriate interpretation of written or spoken samples in the target language with no opportunity for negotiation to take place, students must infer meaning), and **Presentational** (communication that occurs from one to many with time for feedback and polishing of final product). The teaching and implementation of the three modes are in unison with our state and national standards. Our World Language Department is aligned with the Wyoming State Foreign Language standards as well as the national standards developed by the American Council on the Teaching of Foreign Languages. Hathaway Scholarship Requirements for the Provisional and Opportunity Level require 2 Years of World Language, CTE, or FPA (WL classes must be sequenced) and for the Performance and Honors Level it requires 4 Years of WL, CTE, or FPA (2 of the 4 years must be a sequenced pathway). Additionally, more and more colleges and universities are requiring a solid language foundation. Thus, it is recommended that college-bound students achieve the proficiency level of Intermediate-low (end of level II).

The target expectation of proficiency ability and performance that students will have at the end of the year are generally as follows: (Please see chart below for explanation/descriptors for each level)

Level I: Novice-High

Level III: Intermediate-Mid

Level II: Intermediate-Low

Level IV: Intermediate High to Advanced

Language Proficiency Levels and Descriptors

Novice Level	Communicator is limited to using memorized vocabulary in highly predictable/practiced situations.
Novice-Low Level	Students have no real functional ability and because of their pronunciation, may be unintelligible. Given adequate time and familiar cues, they may be able to exchange greetings, give their identity, and name a number of familiar objects from their immediate environment.
Novice-Mid Level	Students communicate minimally using memorized words and phrases to talk about familiar topics related to school, home, and the community.
Novice-High Level	Students communicate using words, lists, and simple sentences to ask and answer questions, discuss interdisciplinary topics studied, and handle simple transactions related to everyday life.
Intermediate Level	Communicator is able to create with the language for basic survival needs: asking and answering simple questions, and dealing with situations or transactions.
Intermediate-Low Level	Students communicate using simple sentences to ask and answer questions, discuss inter-disciplinary topics studied, and handle uncomplicated transactions related to everyday life.
Intermediate-Mid Level	Students communicate using strings of sentences to ask and answer questions, discuss inter-disciplinary topics studied, and handle slightly complicated transactions related to everyday life.
Intermediate-High Level	Students communicate using connected sentences and paragraphs to handle complicated situations on a wide-range of topics.
Advanced Level	Communicator can narrate and describe across time frames with increasing accuracy, engaging in more sophisticated interactions.
Advanced-Low Level	Students communicate using paragraph-level discourse to handle complicated situations on a wide-range of topics.

World Language Courses

Course Name	German I				
Course Number	601901	601902	Credit Type		Elective
Grade Level	9	10	11	12	Credit
Course Length	Year Long Course			Fee	None
Course Level	General				
Pre-Requisite	None				

Meets Hathaway Success Curriculum – Foreign Language

In this course students will learn to communicate in German at a Novice-High level. Instruction is based on the five national standards for language learning: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be exposed to the German language and culture through various resources. The students will be immersed in the German Language except when brief explanations in English are needed. There will be special days in which students participate in cultural activities such as cooking, and the creative arts, including music, art, dance, poetry, storytelling, and drama. Activities will be planned to celebrate various holidays, which are presented from a cultural point of view.

Course Name	German II

Course Level	General				
Pre-Requisite	German I				

Meets Hathaway Success Curriculum – Foreign Language

In this course students will communicate in German at an Intermediate-Low level. Instruction is based on the five standards for language learning, which include: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be exposed to German language and culture through various authentic resources. This class will be conducted in German except when explanations in English are needed such as the teaching of grammar functions etc. There will be special days in which students participate in cultural activities such as cooking, and the creative arts, including music, art, dance, poetry, storytelling, and drama. Activities will be planned to celebrate various holidays, which are presented from a cultural point of view.

Course Name	German III				
Course Number	602501	602502	Credit Type		Elective
Grade Level	11	12	Credit		½ Credit per Semester
Course Length	Year Long			Fee	None
Course Level	General				
Pre-Requisite	German I and II				

Meets Hathaway Success Curriculum – Foreign Language

In this course students will expand and develop their written, oral, listening, and reading proficiency in the German language at an Intermediate-Mid level. Instruction is based on the five national standards for language learning: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be immersed in the German language and culture through various resources. This class will be conducted entirely in German. There will be special days in which students participate in cultural activities such as cooking, and the creative arts, including music, art, dance, poetry, storytelling, and drama. Activities will be planned to celebrate various holidays, which are presented from a cultural point of view.

Course Name	German IV			
Course Number	603631	603632	Credit Type	Elective
Grade Level	12		Credit	½ Credit per Semester
Course Length	Year Long Course		Fee	
Course Level	General			
Pre-Requisite	German I, II, and III (students may choose German IV instead of AP German)			

Meets Hathaway Success Curriculum – Foreign Language

In this course students will expand and develop their communication proficiency in German at an Intermediate-High level to Advanced level for heritage/native speakers. Instruction is based on the five national standards for language learning: communication, cultures, connections, communities and comparisons. These standards determine what the students should know and be able to do in the language of study. Students will be exposed to the German language and culture through various authentic resources. This class will be conducted entirely in German, and is designed to be student-centered, communicative, and proficiency-based. Learning opportunities will include a wide variety of literature, authentic language in context, and cultural perspectives. It encourages students to connect their learning to the community in which they live and helps them see the relationship between language, community, and career. **Students may choose to take German IV or AP German after successfully completing German III. Interested students should talk to their German III teacher for recommendations for proper placement.**

Course Name	AP German Language and Culture			
Course Number	626731	626732	Credit Type	Elective
Grade Level	12		Credit	½ Credit per Semester
Course Length	Year Long Course		Fee	AP Test Fee \$93.00
Course Level	Enriched			
Pre-Requisite	German I, II, and III (students may choose AP instead of German IV)			
Requirement	Students taking this course are required to take the AP German Language and Culture test.			

Meets Hathaway Success Curriculum – Foreign Language

AP German Language is intended for advanced students who wish to develop proficiency and integrate their language skills, using authentic materials and sources. Students who enroll should already have a strong foundation of the language and cultures of German-speaking peoples and should have attained a reasonable proficiency level in using the language. This AP German Language Course will help students prepare to demonstrate their level of German proficiency across three communicative modes (Interpersonal which is interactive communication, Interpretive which is receptive communication and Presentational which is productive communication, and the five goal areas outlined in the Standards for Foreign Language Learning in the 21st Century: Communication, Cultures, Connections, Comparisons, and Communities). This course is meant to be comparable to college and university courses that focus on speaking, reading, listening and writing in the target language at an advanced level. Students who take this class must be dedicated and highly motivated to meet the challenge and rigorous standards of this course. The class will be conducted exclusively in German and students will be expected to use the target language at all times. Students who enroll in this course are required to take and pay for the AP German Language Exam. **Students may choose to take German IV or AP German after successfully completing German III. Interested students should talk to their German III teacher for recommendations for proper placement.**

Meets Hathaway Success Curriculum – Foreign Language

AP Spanish Literature is designed to provide students with a learning experience equivalent to that of a third-year college course in Peninsular and Latin American literature. The course is designed to introduce students to the formal study of representative body of Peninsular and Latin American literary texts. Students will read and analyze authentic works from various periods, which include: Medieval and Golden Age Literature, Nineteenth Century Literature, and Twentieth-Century Literature. Students who take this class must be dedicated and highly motivated to meet the challenge and rigorous standards of this course. The class will be conducted exclusively in Spanish and students will be expected to use the target language at all times. **Interested students should talk to their Spanish teacher for recommendations for proper placement.** Students who enroll in this course are required to take and pay for the AP Spanish Literature and Culture Exam.

Make College A Reality

The state of Wyoming provides Hathaway Merit and Need-Based Scholarships to all eligible Wyoming students attending the University of Wyoming or Wyoming community colleges.
