

Greater Jasper Consolidated Schools
COVID Online Academy (EdOptions)
2020-2021 School Year

- COVID Online Academy will be implemented through a partnership with Edmentum's EdOptions Academy.
 - The COVID Online Academy (EdOptions) is a rigorous curricular program. This Online Academy will **not** be structured or implemented as eLearning was in Spring 2020.
 - EdOptions Academy provides certified teachers. ***The teacher that your child will interact with is not a GJCS teacher; however, your student remains a GJCS student.***
 - Students will interact with the content of the curriculum through a digital dashboard with live support available from 8:00am-5:00pm from EdOptions Academy certified teachers.
 - Students should plan to spend 3-5 hours for elementary or 5-6 hours for middle/high per day, on average, engaged with the curriculum.
 - No restrictions on when students must sign in and invest those hours; however, attendance will be taken based on appropriate weekly progress as defined by EdOptions Academy.
 - Students will engage with the curriculum in a completely virtual environment; younger students will need the support of a parent/other adult to navigate the system and serve as their learning guide.
 - Live help sessions available throughout the day. After hours support calls can be scheduled with the student's EdOptions Academy teacher.
 - Grades K-1 students will be enrolled in ELA, Math, Science, Social Studies, PE and Health
 - Grade 2-5 students will be enrolled in ELA, Math, Science, Social Studies, PE and Health, and Art and Picture Study
 - Grades 6-12 students will be enrolled in 6 courses that best align to their previously built schedule. Honors level courses are not available except for the Advanced Placement courses listed below.
 - Student will be provided a school-issued device.
- A GJCS facilitator will provide support in registration, progress monitoring, and technology troubleshooting of GJCS devices. The GJCS facilitator will **not** provide academic support; the student's EdOptions Academy teacher will provide any and all academic support that is needed.
- Final grades will be provided by EdOptions Academy and transferred to the student's GJCS transcript/permanent record.
- Students are expected to commit to a semester at a time if utilizing the Covid Online Academy. A drop period will be available until August 26, 2020.
 - In the scenario that in-person GJCS students shift to eLearning, students who have opted for the Covid Online Academy will remain in the Covid Online Academy setting. They will **not** shift to GJCS teachers.
 - Outside of the two week drop period, Covid Online Academy students may opt to return to in-person instruction with GJCS teachers **only** at the semester break.
- Student fees will align to the associated grade level or course fees for in-person instruction.
- Registration process:
 - Complete GJCS registration ensuring all contact information is up to date.
 - When prompted, select the option to opt for the Covid Online Academy.
 - Your child will then be enrolled in the appropriate courses and you will be contacted by your EdOptions Academy teacher with start-up information.

Grade K-1 Courses

ELA, Math, Science, Social Studies, PE, and Health
