

CREATE YOUR OWN MED TERM

- With a partner, use your knowledge of medical terminology and your creativity to come up with your own med term.
- You must use a prefix, root word and suffix.
- Define each word part, then give the definition for your term.
- Tell what body system it effects
- How Diagnosed
- Treatment
- What specialist you would see
- Illustrate what your term looks like. Be sure to **COLOR**!
- Be ready to share with the class.
- Have fun with it!
