

Chemistry 431, 531 Assignment #6

Term 2

"Your Choice"

Due Thursday, June 3rd

The assignment is to be done individually and must be typed.

Do **ONE** of the following (doing more than one would count towards incomplete labs, or incomplete assignments, or a low quiz mark)

1. Write a one page poem related to Chemistry, typed and double spaced.

OR

2. Write a one page, typed and double spaced, story about a day in the life of an electron in a Potassium atom.

OR

3. Make a video along with accompanying audio showing an example of how Chemistry is used in everyday life. (Minimum 5 minutes) If done as group of two, then it should be 10 minutes.

OR

4. Pretend that you are writing a letter to your cousin, one page, double spaced and typed, describing why it is important for everyone to take at least one course in Chemistry.

OR

5. Draw a concept map to show how all the major topics that we have studied are related. (Please print and don't forget about those connecting words)

OR

6. Write a story, typed, one page, double spaced, about a day in the life of a certain element or compound.

OR

7. Draw three cartoons along with text with a Chemistry theme.

OR

8. Write 10 Chemistry jokes. (They must be typed and not include anything we have mentioned in class)

OR

9. Write and sing a Chemistry song. This could be original music or sung to the beat of a familiar song. Hand in typed words and cassette of song. (Could be group of two)
