

MISSION: To maximize academic achievement by engaging middle and high school CMS students in rigorous and relevant learning to prepare for **postsecondary education** and **careers**.

HOW CTE WORKS

DISCOVER

While still in middle school, CTE allows CMS students to begin to explore their career interests.

A variety of career fields called **pathways** are offered in high school to help equip students with the 21st century skills needed for a global economy.

UNIFASH

Sequenced CTE career pathway courses give CMS high school students the framework to begin to move toward their career goals.

CTE students are given the opportunity to receive industry recognized certifications, earn credit towards postsecondary degrees, or begin careers after graduation.

Students who complete a pathway sequence earn recognition as a Concentrator

SOFTWARE DEVELOPMENT

COURSE SEQUENCE:

- AP COMPUTER SCIENCE PRINCIPLES
- OMPUTER PROGRAMMING I
- B AP COMPUTER SCIENCE A
- SOFTWARE DEVELOPMENT FUNDAMENTALS

SOAR

CTE students are **better prepared** for higher-level courses in college as well as a wide range of **high-wage**, **high-skill**, **high-demand** careers.

CTE students are given the opportunity to receive industry recognized certifications, earn credit towards postsecondary degrees, or begin careers after graduation.
