

DIEGO RIVERA

Muralista Mexicano

Diego Rivera

- **Diego Rivera is considered the father of Mexican mural art and the father of modern political art in Mexico.**
- **The birth of Mexican mural art in the 1920's was one of the most revolutionary events the government has done for the country because it recognized the power of political art.**
- **One of these ideas was the creation of murals on public buildings so that art could be shared with the masses.**
