

Dawn Rose
AP Calculus AB
Blizzard Bag #1

Learning Objective:

- To continue with the current unit being studied in Calculus

Overview of the Lesson:

Students will watch a teacher generated video on the current topic(s) being discussed in the course and complete a worksheet that accompanies the video.

Student Directions:

You are to link to Youtube or the DBHS AP Calculus Facebook page find the links to the current video. I will also send a twitter message with the link to the video. Once you have watched the video and taken notes you are to complete the assignment that will be included. On the Facebook page, there will be a file attached to the post so that the assignment can be printed. If you do not use Facebook, I will include the assignment problems on the video.
