

Day 20: Mood Portraits

Create a grid of 16 mood portraits by photographing different moods from the list below and create a grid (with 4 rows, and 4 columns) of 16 mood portraits. When you are finished, convert it to black and white.

- Your back drop should be simple & clean.
- ALL your photos should be either vertical or horizontal. (They all have to be shot the same way, so no turning your camera around.)
- Your photos should be shot at close distance, headshot style.
- You should stay in the same place for ALL your shots. Your feet shouldn't move.
- Your photos should be of only **ONE PERSON** wearing the same outfit.
- Shoot A LOT of images, not just 16, so you have options to choose from.
- Choose your favorite 16 and put onto a grid collage on Pic Collage. All your photos should be the exact same size and the images should be organized into a symmetrical grid.
- Please convert your grid to black and white.
- BEFORE turning in your photo, look at the examples and ask yourself if yours look like the example below. If not, do it again.

Turn in your mood portrait here for a grade:

Mood List

admiring	hilarious	commanding	abhorring	hostile
adoring	hopeful	direct	acerbic	impatient
affectionate	humorous	impartial	ambiguous	incredulous
appreciative	interested	indirect	ambivalent	indifferent
