

Abstract Photography At Home

Water & Oil on top of a funky screen of iPad

Find a cool vector image on an ipad or phone. Get a glass bowl or plastic plate works best, and put a small amount of water about $\frac{1}{3}$ of an inch high. Add cooking oil and stir. Get in close and photograph the bubbles creating abstract images. Get 12 shots and turn in a collage of your best three.

Or play with milk, dawn dish soap and food coloring

Fill a plate with full fat or low fat milk and add food coloring by small drops and a couple drops dawn dish soap. Stir gently and zoom in close. Take 12 shots and turn in your best three on a collage.

Water and food coloring in a glass

- Water
- Vase
- Food Coloring
- Light

Place vase, glass or fish bowl in front of a window, so it's back lit. Slowly put food coloring into water and photograph it. Zoom in and fill frame. Edit photos so they pop with color and the background is as white as possible.

Chris Jonassen Devour Series <https://christopherjonassen.com/devour2>

Photograph the bottom of your frying pans! Paint the outside of the pan black, pump up the colors by increasing saturation and contrast. Play with HDR and add a strong vignette.

What you will turn in:

Choose to photograph:

- Oil and water on top of ipad
- Milk and food coloring + dawn dish soap
- Water & food coloring
- Bottom of a frying pan

Capture at least 12 photos of ONE THEME and choose your best three to edit and put on top of a collage.

Guaranteed you will love taking these pictures.
