

From Mess to Success

For today's photo challenge, I want you to go to your backyard, front yard, balcony or take a short walk outside and stay in a small space and find things to photograph. Limit yourself to one space and stay there for 30 minutes and take at least 50 photos.

Spend at least 30 minutes photographing an entire area. Force yourself to stay in one space and try to find things to photograph, and I bet there are things you never noticed before.

- Zoom in
- Fill Your Frame
- Don't put your subject right in the middle
- Lock your focus on one thing and try to blur out the background
- Shoot in both vertical and horizontal format
- Try different angles
- Shoot somewhere with good lighting, so if you are in your house, shoot with the windows open!
- PICK YOUR TOP TEN AND PUT INTO A COLLAGE using [PicCollage](#)
- YOUR PHOTOS MUST POP WITH COLOR BECAUSE YOU **EDITED** YOUR FAVORITES.

Turn in you collage for a grade
