

Draw an Atom

Element Name	Protons	Neutrons	Electrons	Valence Electrons
boron-10				
boron-11				
nitrogen-14				
nitrogen-15				
oxygen-16				
oxygen-17				
oxygen-18				

PARTS OF AN ATOM
Directions:
 You will be drawing the parts of an atom. Determine which colored pencils will be the proton, neutron, and electron. Fill out the Key below with your colors (ex. blue for protons, green for neutrons, red for electrons). Then use the Isotopes table to create your atoms. Put the element name on the line below the atom.

Key

-  Protons
-  Neutrons
-  Electrons
