

For girls who have not yet
had the opportunity to
participate in Girl Scouts
this school year.

Reach for the Stars!

Be A Space Science Explorer

Explore and observe the Sun, Moon, and stars with your favorite adult. Come learn how the Earth rotates making it daytime and nighttime. Practice making predictions like a good scientist, and see things with your eyes and space science tools, like binoculars, in new ways.

Join us for an interactive and fun event!

Caregivers will also be able to participate and learn more about Girl Scouts as well.

January 22nd, 2019

6:00PM-7:00PM

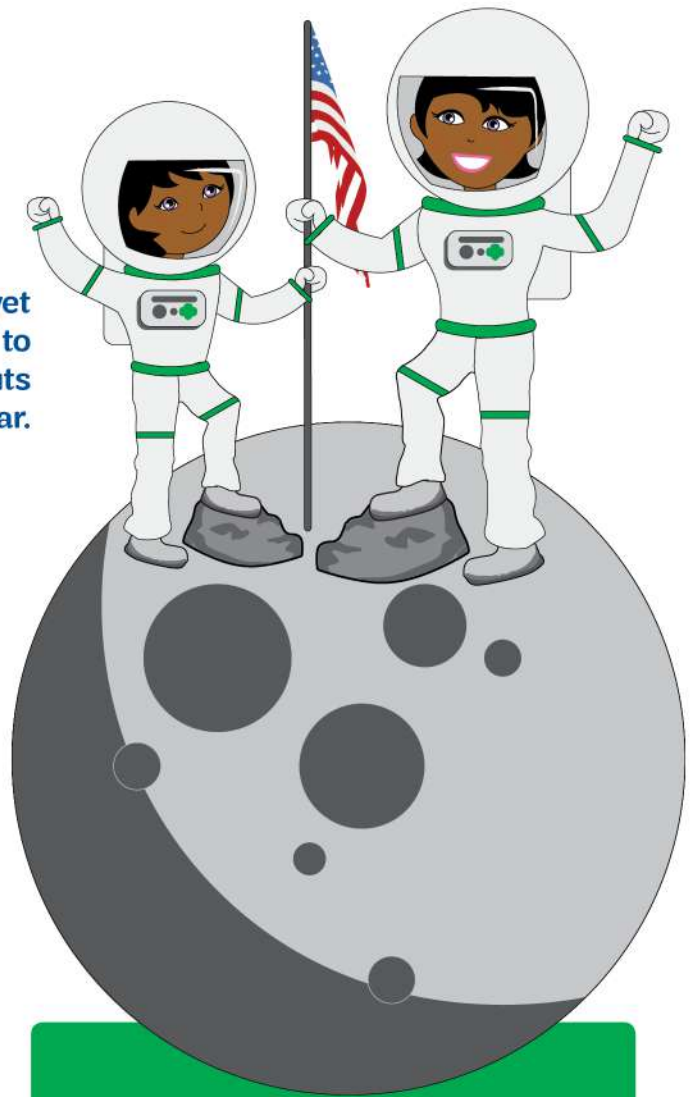

Driscoll Elementary Cafeteria

5767 Marshall Rd.

Dayton, OH 45429

Questions? Contact Madelyn Alsace
