

Hobart High School College Credit Initiative

What is Dual Credit?

Dual credit also called Concurrent Enrollment, is the term given to courses in which high school students have the opportunity to earn both high school and college credits.

These dual credit courses are taught by high school teachers using the high school text & curriculum during the regular high school classes.

An agreement is made between secondary and post-secondary schools establishing dual credit partnerships for each course involved. Because the college or university partner is awarding college credit the agreement requires the high school and students to meet each college eligibility standards.

Who Can Enroll in a Dual Credit Class?

All students can take a class designated “dual credit” class for high school credit, although usually reserved for juniors & seniors (some are HHS graduation requirements). However, students who elect to register for the dual credit must qualify to take part in the dual credit component of the class. The requirements are based on the post-secondary school.

What is the Core Transfer Library of Courses?

The college Core Transfer Library (CTL) is a list of college courses that are guaranteed to transfer (the ‘CTL guarantee’) among all of Indiana’s public college and university campuses, given certain conditions. Indiana’s public colleges and universities developed the CTL in response to legislation passed in 2005.

The CTL will be continually updated with work from Indiana’s public and independent colleges and universities. A full listing of courses available in the CTL is online at www.TransferIN.net/ctl

The Future of the HHS Dual Credit Initiative

It is our goal to continue to expand our dual credit offerings. We firmly believe it will help us create a more rigorous curriculum that will help our students be more successful in their post-secondary studies.

What If You Have Dual Credit?

1 Semester

Course	Credit	Fee
Psychology 101	3	\$606.90
English 101	3	\$606.90
Pre-Calculus	3	\$606.90
History	3	\$606.90
Intro to Engineering and Design	3	\$606.90
Total	15	\$3034.50

2 Semester

Course	Credit	Fee
Chemistry	3	\$606.90
English 102	3	\$606.90
Calculus	3	\$606.90
Government	3	\$606.90
Civil Engineering	3	\$606.90
Total	15	\$3034.50

- Financial - Total Savings – 2 semesters - \$6069.00
- Graduation acceleration by one year
- Success is proven and increased opportunity to graduate

Benefits of Dual Credits

- Financial Advantages
- Have an accelerated start in college
- Statistically, those that earn college credits in high school have an increased rate of success in life.
- Take courses in the comfort of your high school with teachers that you know.
- Familiarity with university registration process, policies and procedures.

MISSION POSSIBLE!
