

Spread your wings.

## EBSCO Publishing Resources Now Available through NC WiseOwl

[www.ncwiseowl.org](http://www.ncwiseowl.org)

### ■ **Academic Search™ Premier**

Containing indexing and abstracts for over 8,450 journals — with full text for more than 4,650 of those titles — this scholarly collection offers information in nearly every area of academic study, including biology, chemistry, engineering, physics, psychology, religion & theology and more.

### ■ **Auto Repair Reference Center™**

Containing information on most major manufacturers of domestic and imported vehicles, this database provides information on more than 33,800 vehicles, including drawings and step-by-step photographs, technical service bulletins & recalls, enhanced wiring diagrams, specifications & maintenance schedules, a Labor Time Guide & Estimator and much more.

### ■ **Business Source® Premier**

Providing full text for more than 2,150 journals dating back as far as 1965, this superior business resource covers all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. Additional full-text, non-journal content includes market research reports, industry reports, country reports, company profiles and SWOT analyses.

### ■ **Career Library™**

As a comprehensive information resource for career and college research, *Career Library* offers five user-friendly components that help users match their interests to occupations, education prospects and more: Exploration Center, Planning Center, Resource Center, Help Center and Activity Center.

### ■ **CINAHL® with Full Text**

This is the definitive research tool for all areas of nursing and allied health literature, providing full text for nearly 600 journals indexed in *CINAHL*, as well as access to nearly 3,000 indexed journals. This resource also includes continuing education modules, research instruments records and much more.

### ■ **Consumer Health Complete™**

Designed to support patients' information needs and foster an overall understanding of health-related topics, this full-text database provides content covering all areas of health and wellness, from mainstream medicine to the many perspectives of complementary, holistic and integrated medicine.

*Information provided in this database should not be viewed as a means for self-diagnosis or a substitute for professional medical advice, diagnosis or treatment.*

### ■ **ERIC®**

ERIC, the Education Resource Information Center, provides access to education literature and resources. The database provides information from journals included in the *Current Index of Journals in Education* and *Resources in Education Index*, and contains more than 1,282,000 records and links to more than 314,000 full-text documents from ERIC.

### ■ **GreenFILE**

This collection of scholarly, government and general-interest titles includes content on the environmental effects of individuals, corporations and local/national governments, and what can be done at each level to minimize these effects.

### ■ **Health Source®: Consumer Edition**

This database offers a rich collection of consumer health information, providing access to nearly 80 full-text consumer health magazines and many other related resources. Topics include cancer, diabetes, drugs & alcohol, aging, fitness, nutrition & dietetics, children's health and more.

*Information provided in this database should not be viewed as a means for self-diagnosis or a substitute for professional medical advice, diagnosis or treatment.*

### ■ **Health Source®: Nursing/Academic Edition**

This resource provides nearly 550 scholarly full-text journals focusing on many medical disciplines, and offers access to 822 abstracted and indexed journals. Coverage of nursing and allied health is particularly strong.

### ■ **Library, Information Science & Technology Abstracts™ (LISTA)**

LISTA indexes more than 550 core journals, 50 priority journals and nearly 125 selective journals, plus books, research reports and proceedings. Subject coverage includes librarianship, classification, cataloging, bibliometrics, online information retrieval, information management and more.

### ■ **Literary Reference Center™**

This full-text database provides users with a broad spectrum of information on thousands of authors and their works across literary disciplines and timeframes, combining information from major respected reference works, books and literary journals, and much more.

### ■ **MAS Ultra™ – School Edition**

Designed specifically for high school libraries, this comprehensive database contains full text for more than 500 popular high school magazines, as well as full-text biographies, primary source documents, reference books and an extensive Image Collection.

### ■ **MasterFILE™ Premier**

Designed specifically for public libraries, this resource contains full text for nearly 1,750 periodicals covering general reference, business, health, education, general science, multicultural issues and much more.

### ■ **Middle Search® Plus**

This database contains full text for more than 140 popular middle school magazines, as well as thousands of biographies and historical essays. Additionally, *Middle Search Plus* contains primary source documents, reference books and an extensive Image Collection.

### ■ **Military & Government Collection™**

Designed to offer current news pertaining to all branches of the military and government, this database offers a thorough collection of periodicals, academic journals and other content pertinent to the increasing needs of these sites.

### ■ **Newspaper Source™ Plus**

This resource contains full text coverage for 1,520 major national (U.S.) and international newspapers, and features more than 601,300 television and radio news transcripts, videos and podcasts.

### ■ **NoveList® K-8 Plus**

Providing information on thousands of fiction and nonfiction titles designed to support the curriculum and kids' pleasure reading, this resource has a colorful, graphic-rich homepage created especially for kids.

### ■ **NoveList® Plus**

In addition to providing robust information on fiction and nonfiction titles, *NoveList Plus* includes special sections for Teens, Older Kids and Younger Kids that are dedicated to integrating fiction and narrative nonfiction in the classroom and across the curriculum.

### ■ **Primary Search®**

Designed with elementary school libraries in mind, this database contains full text for more than 70 popular elementary school magazines, and includes reference resources with content written specifically for kids.

### ■ **Regional Business News™**

This resource provides full text for more than 80 regional business publications (including titles from Crain Communications).

### ■ **Science Reference Center™**

Designed to meet every student's science research needs, this resource database contains full text for hundreds of science encyclopedias, reference books, periodicals and other sources, providing easy access to a multitude of science-oriented content.

### ■ **The Serials Directory™**

This database provides access to the most up-to-date and accurate bibliographic information, as well as current pricing structures for popular serials. This invaluable resource contains U.S. and international titles, including newspapers; data from publishers worldwide (including e-mail and Internet addresses); and Library of Congress and Dewey Decimal Classifications for every entry.

### ■ **Teacher Reference Center**

Providing indexing and abstracts for more than 270 periodicals, this resource covers topics including Assessment, Best Practices, Continuing Education, Current Pedagogical Research, Curriculum Development, Elementary Education, Higher Education, Instructional Media, Language Arts, Literacy Standards, School Administration, Science & Mathematics and Teacher Education.

### ■ **TOPICsearch™**

This current events database allows researchers to explore social, political & economic issues, scientific discoveries and other popular topics discussed in today's classrooms, including controversial opinions and viewpoints. *TOPICsearch* contains full text for over 60,000 articles from diverse sources, including international and regional newspapers, periodicals, biographies, public opinion polls, book reviews, pamphlets and government information.

## ■ EBSCOhost®

More than 300 full-text and secondary databases are available via EBSCOhost. According to *School Library Journal* (August 2008), "EBSCO has not only completely redesigned its interface, it has taken database searching into the 21st century, creating a model certain to motivate change in future databases."

It is this premise that makes EBSCOhost the most-used reference resource around the world. A customizable, intuitive search experience, EBSCOhost is designed to cater to various user needs and preferences at every level of research. EBSCOhost is available 24 hours per day, 365 days per year.

## ■ Student Research Center™

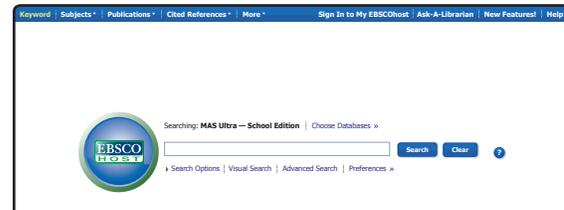

The *Student Research Center* provides students in secondary schools with the most appropriate research tools for easily obtaining the information that they seek from their EBSCO databases. Through the *Student Research Center*, users can easily pre-determine which content sources (e.g., Magazines, Newspapers, Biographies, Country Reports, Film & Video) will be included with their search. They can also search their databases by topic heading, make use of an online dictionary and encyclopedia, explore the top searches of the day, and even limit their search according to appropriate Lexile reading levels where applicable.

## ■ Kids Search™

Designed specifically for middle/elementary school students, the *Kids Search* interface combines a state-of-the-art search engine (powered by EBSCOhost) with a child-friendly, graphically-rich design that is both powerful and fun to use. *Kids Search* makes it easier for students to look for their subjects of interest by automatically searching across all applicable databases simultaneously. Important features and functionality of *Kids Search* include a visually appealing look and feel; the ability to search by topic, subtopic or keywords; simultaneous searching across all subscribed databases; and much more. Some databases may include Lexiles in citation information.

## ■ Searchasaurus®

*Searchasaurus* is an exciting and easy way for young researchers to experience online searching. It is an animated interface with a dinosaur theme that encourages students to enhance and develop basic search methodologies. Students will be riveted by the colorful, animated interface, complete with erupting volcanoes and a dinosaur guide, as they gather information on a wide range of topics. *Searchasaurus* offers Lexile limiters (reading level), making it easy for students to read and research only appropriately challenging materials.
