

exploring COMPUTER SCIENCE

Dear Students,

Welcome to Exploring Computer Science for the 2019 - 2020 school year. I am looking forward to learning with you in our course. I am writing prior to the official start to unpack some important information.

Course Availability: The official course website will be open on August 4, 2019 @ <https://thecyberchamps.weebly.com/>. While on the course website, click the “introduce yourself” tab and complete the task, and afterwards click the “student survey” tab and complete that task. If you encounter any technical difficulties before the first official day, please contact me at cyberchampscoach@gmail.com to make me aware of your issue.
