

## Eggman Distribution Reflection:

1. Explain why you chose each mode of transportation for each step in the journey.
2. How much did your transportation cost? Please use the table below for calculations:

Item	Amount	Total Cost
Transportation Time	Seconds x \$100	
Employee Cost	Number of people required per station x number of stations x \$250	
Damage Touching the floor Touching the egg Cracks	\$2500 total, not per event.	

3. What will you do differently the next time a retailer in Hawaii orders Eggman?
4. How does this activity apply to the challenges faced by distributors in the real world? Please write a minimum of two paragraphs, double-spaced. Use your handouts from the Virtual Business Retailing Location and Place lessons, and include relevant terms in your reflection..
