

Thank you for your interest in the ELA Choiceboard.

It is a product that I sell on TpT, but I wanted to help you out in case you want to make something similar.

Below is a link to the Google Slide you can use as a framework.

I also included the cheat sheet and the 10 question practice form for the inference section to get you started!

I hope this helps! Please let me know if you have any questions.

Savannah Kepley
