

## Fruit

1. Study different shape fruits from books, internet, and/or examples
2. Pay close attention to the different shapes, angles, values, and proportions
3. Divide 12x 18 white paper into a 6"x12" section and a 12"x12" section.
4. Divide the 12"x12" section into 16, 3"x3" squares.
5. In the top 6"x12" square draw an apple using accurate proportions and shade using hatching and cross hatching techniques
6. Each 3"x 3" use one of the elements and principles of art.
7. \*See diagram below

Texture			
Choice	Shape	Form	Space
Line	Value	Color	Choice
Rhythm	Unity	Emphasis	Balance
Choice	Proportion	Variety	Move-ment

8. In each square use the above element or principle to create a unique and creative apple.
