2020-21	1,047	108	139	135
2021-22	1,068	117	163	162

Type of Data
Demographic

Source of the Data

The Student Count report is based on data collected on legislated count day, which is the first Wednesday of October, and is pulled from both the Fall General Collection and the Early Childhood Collection in Michigan School Data System (MSDS). Only students receiving school-based services are in this report.

Description of the Data

The information on this chart includes the total number of students for the specified grade level. Additionally you will find both the actual numbers as well as the percentage of the total for each subgroup (Students with Disabilities, English Language Learners, and Economically Disadvantaged)
