MY COLOR ART.

COLOR THEORY

Color is an element of art.

Everytime I use color, I am creating a color scheme.

⬅ This is a color wheel.

The most common color schemes are listed below.

Primary...  {I can make all the other colors by mixing different amounts of primary colors}

Secondary...  {I can mix two primary colors to make a secondary color}

Warm...  {Yellow and all the colors with red and orange tones are warm.}

Cool...  {Violet and all the colors with blue and green tones are cool.}

Complimentary...  {Opposites on the color wheel are complimentary.}, etc

Analogous...  {Colors that are close neighbors on the color wheel are analogous.}, and so on.

Rainbow...  {Using primary and secondary colors placed in order from the color wheel, I can make a rainbow}

Intermediate... is a color term I need to know. It is the color in between the primary and secondary colors on the color wheel.
