VOLUNTEER APPLICATION AGREEMENT FORM

New Hampshire statute RSA 189:13-a requires that the Goffstown School District, New Boston School District and SAU 19 complete a background investigation that must include a criminal history records check on every selected applicant who wishes to be a designated volunteer before such volunteering can commence. The statute also requires that the selected applicant submit to the respective District, as employer, a notarized criminal history records release forms and a complete set of fingerprints so that the background investigation may be completed.

I understand that a complete background investigation, including a criminal history records check, will be conducted on me and I agree that I will, upon request, provide the District with a notarized criminal record release authorization form and a complete set of fingerprints to facilitate that background check. I understand that no volunteer will be considered a "designated volunteer" until the completion and return of the criminal records check.

By signing below the applicant has read and agrees to the above conditions.
