

Emporia State University is making exciting changes for your bright future! ESU has a long history of offering awesome academic programs with unique experiences and personal attention. And now, we're doing even more to add new options that elevate your college experience and connect you to your future career. Keep an eye on **emporia.edu/programs** for our current list of majors + exciting new programs coming soon!

COMING SOON!

Nursing

ESU's 100-year-old **Nursing** program is moving to campus fall 2025 to a **brand-new building** designed specifically for the nursing program. Upgraded classrooms, simulation hospital rooms and more will offer incredible hands-on experiences that prepare you for your career.

Graphic Design on the Move

The **Graphic Design** program in the Department of Art is adding motion graphics courses to help you learn how to be a better digital and graphic storyteller!

Bolstering Marketing + Management

Students interested in **Marketing + Management** will now benefit from an expanded Business Administration program. As a Business Administration major, you will select your area of concentration: Marketing, Management or one of nine other concentrations. You will graduate with both broad and specialized skill sets employers will want to hire!

Esports + Eventures

We're expanding **esports at ESU** with an all new competitive esports team and an awesome gaming space set up with new tech, streaming spaces and more.

Expanding Technology

The **Computer Science** program is adding exciting new concentrations in **Cybersecurity, Application Development** and **Data Science**. You'll benefit from a top-notch Computer Science major with the opportunity for additional specialized programming tailored to your career goals. Not to mention, we're opening an all-new Cybersecurity Center fall 2023!

Information Systems + Analytics will be a new major with concentrations in **Business Data Analytics** and **Information Systems**. You'll gain high-value, high-demand skills employers want!

History + Government

We're merging our history and political science programs into one robust **History + Government** program that prepares you for further study and/or careers in law, public administration, politics and more.
