Welcome to EBSCO's Science Reference Center (SCIRC) tutorial. Science Reference Center contains full text for hundreds of science encyclopedias, reference books, periodicals, and other sources. In this tutorial, we will look at conducting a search from the Basic Search screen, as well as the browsing options available in Science Reference Center.

Studying Stars

Studying Stars.

110% 🔻

The night sky is dotted with tiny, twinkling stars. They look like specks of light in the distance. All stars appear small from Earth because they are so far away. In fact, stars are very large. Did you know that the Sun is also a star? Some stars are larger than the Sun. Others are smaller than the Sun. The **mass** of some stars can be about 10 times greater than the Sun.
