

Sitton Spelling Program

The Brunswick School Department has adopted the Rebecca Sitton Spelling Program for use in grades 1-5. This program emphasizes the learning of important words known as “priority words” and spelling strategies that students need in order to be good spellers. The goal is long term mastery and application, rather than short term memory of words recently studied. Students receive specific skills instruction (phonics, word origins, spelling rules, usage, etc.) through everyday writing and through word study of specific “core” words.
