# Equitable Use of ESSER III Funds

How is your district taking educational equity into account when planning for expending your ESSER III funds? For example,

- 1) allocating funds both to schools and districtwide activities based on student needs, and
- 2) implementing an equitable and inclusive return to in-person learning by, for example, avoiding over-use of exclusionary discipline and creating a positive and supportive learning environment for all students.
- 1. The funds are allocated to both individual schools and districtwide student needs. 2. Funds are allocated to provide equitable and inclusive distribution of extended time/summer school programming as well as access to supplemental instructional materials to all schools according to student needs. 3. Professional Development/coaching will be provided to district and all schools staff to meet the identified academic and social emotional needs of all students.
