ESY Worksheet:

Examples of data to be reviewed – Questions 5 and 6

A number of sources of data that may be used in the determination of regression/recoupment are available including but not limited to the items noted below:

- Documentation showing when skills were mastered
- Grades
- Attendance profile
- Professional recommendations
- Behavioral logs
- Assessment data including informal and standardized testing results
- Educational history
- A database of regression/recoupment (gathered and documented during regular school year)
- Medical data
- Direct observation of student's classroom performance
