

### FINAL DAYS

We will end the year working on personal essay writing in hope of preparing you for your college essay writing. We will read other people's essays and begin by "free writing on various topics." Your free writing is not essay form – it is a free for all where you brainstorm ideas. I will not grade free writes – merely check off that you did them. You will eventually choose one of your four free writes to develop into your final essay which will be submitted to [turnitin.com](https://turnitin.com) at the end of the period on Friday 6/10.
