

## At Home FACE OFF Challenge

**Goal:** To create a realistic fantasy/sci fi project either: I am okay with a mask, figure, or even an object(such as a Taiaha (staff), thor hammer etc) In the style of your favorite episode.

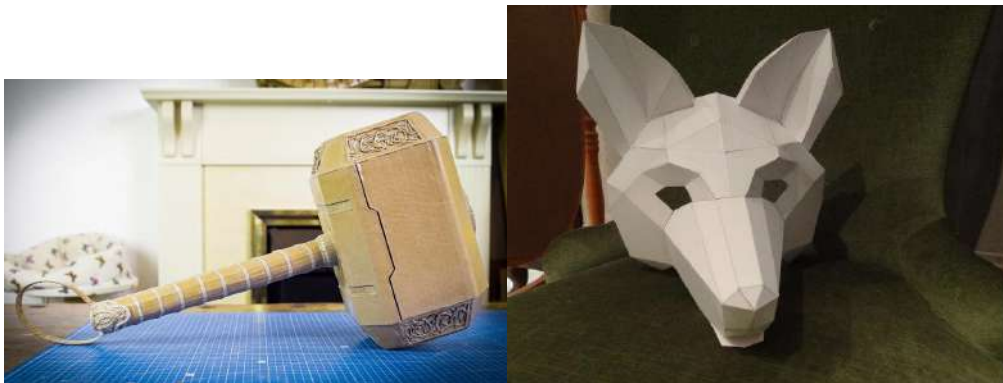

- 3D(using at home materials)
- 2D(creating a fully colored 2 page plan of the work to be done)
- Virtual(using a free modeling program [Sculptris](#))

### **Requirements:**

1. Watch 5 episodes of [Face Off](#). **Due by Friday 27/3**
2. Fill out the [attached worksheet](#) and answer questions about the episodes you watched. **Due by Friday 17/4**
3. Participate in one online critique of the episodes. **TBD**
4. Create a final sci-fi project in one the styles listed below. **Due by 30/4**

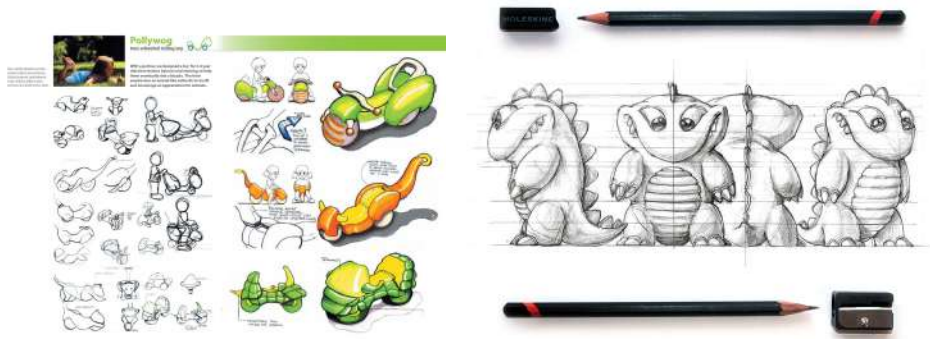

### **3D Model:**

- Use materials at home to create a model of the project you would like to make.
- The model should be at least 1/2 scale. For example if you are making a mask it is half the size of your face.
- Use youtube to find videos to help you in the process. Here are a couple examples I found that might help.
- [This guy makes a fox mask out of trash.](#)
- [This guy makes cosplay items out of cardboard.](#)

### **2D Plan:**

- You can create a full 3D model drawing on 2 FULL sheets of paper.
- Should have a drawing of the front, side, and top of the model.
- Drawing needs to be fully colored.
- Should have 3-4 references from REAL images.
- Have a list of materials needed to build the model if the model was to be built.
- [This channel has many resources for drawing 3D plans.](#)

### Sculptris:

- You can create a virtual model using [Sculptris](#).
- You will need to familiarize yourself with the program.
- [Here is a basic setup of the program and how to use it.](#)
- [Here is how to sculpt a creature.](#)

Intermediate Rubric Project: Face Off Challenge	Name:
Goal To create a realistic fantasy/sci fi project either: I am okay with a mask, figure, or even a object(such as a staff, sword, thor hammer, etc)	/30

<b>Creativity</b> Original Design = 20 points Altered design with own elements = 10 Completely copied = 5 points	/20
<b>Craftsmanship</b> Project looks like a professional model = 30 Project is complete but appears cheap or unfinished = 20 Incomplete project = 10	/30
<b>Worksheet</b> Completed worksheet	/50
<b>Class Critique</b> Participates in 1 class critique	/20
<b>Comments:</b>	/120
