Identify statements of fact and opinion.

Ask questions to differentiate statements of fact and opinion.

Next Page

Let's review!

Directions:

On your sheet of paper answer these 2 questions:

What is a fact?

What is an opinion?

Next Page

Directions: Check your answers.

What is a fact?

A **FACT** can be proven to be true.

If you can find proof, or evidence for a sentence, then it is a **FACT**.

What is an opinion?

An **OPINION** tells what someone thinks or feels.
It cannot be proven **true** or **false**.

It often contains words that make judgments...
Examples: interesting, beautiful, etc.
