

# Famous Photographers

---

This year you will be doing research on a famous photographer. Throughout the year you will give a presentation to the class on this person and you will recreate some of their famous photographs as your own. This is a year long project, so make sure to choose one that you will be ok with using since **you can not change it later on**. Each student will have their own, and you can't share one with your friend.

---

Listed here are the approved Famous Photographers you may choose from. If there is one you know of not on the list you will need to get approval from Mr. Nistas to pick them. (Instagram Famous isn't always Worldwide Famous)

- |                          |                           |
|--------------------------|---------------------------|
| 1. Richard Avedon        | 26. Andreas Gursky        |

You will need to choose your top five, with one being your first choice, etc. Mr. Nistas will look through and try to give everyone their first choice but will go through the top five in order to give each person their selection.
