

Frequently Asked Questions For ROCORI MacBook

How to turn on/off my MacBook?

Function (Fn) key

Touch ID (power button): Press to turn on your MacBook Air (or just lift the lid or press any key). When you first start up or restart the computer, you need to log in by typing your password. You can set up Touch ID during setup, or later in the Touch ID pane of <u>System Preferences</u>. After setup and initial login, whenever you're asked for your password, you can just place your finger lightly on the Touch ID sensor to authenticate.

Note: To turn off your MacBook Air, choose Apple menu \bigstar > Shut Down. To put your MacBook Air to sleep, choose Apple menu \bigstar > Sleep.

How do I charge my Mac?

Charge the battery. Connect your MacBook Air to a power outlet using the included USB-C Charge Cable and 30W USB-C Power Adapter.

You can charge your MacBook Air using either of the Thunderbolt 3 ports on your computer. The battery charges more quickly when the computer is off or in sleep.

Check the battery's charge. Look at the battery status icon at the right of the menu bar to see the battery level or charging status.

Charging

Charged

Conserve battery power. To extend battery life on a given charge, you can reduce the display brightness, close apps, and disconnect peripheral devices you're not using. Click Energy Saver in <u>System</u> <u>Preferences</u> to change your power settings. If your MacBook Air is in sleep when a device is connected to it, the device's battery may drain.

How to connect the device to your WiFi?

You can use the Wi-Fi menu to quickly connect to a nearby wireless network.

- 1. Click the Wi-Fi icon ($\widehat{\curvearrowleft}$ or \bigcirc) in the top menu bar on the right.
- 2. If Wi-Fi is off, choose "Turn Wi-Fi on."
- 3. Select a nearby Wi-Fi network from the list.

If you don't see your network listed, make sure it's nearby and that others can connect to it. It could also be a <u>"hidden" network</u>. You can connect to a hidden network by choosing "Join other network" and entering the name of the network you're trying to use.

The strength of each nearby network is shown next to its name. More darkened bars indicate a stronger network connection.

Enter your password

Networks that have a lock icon next to their name require a password. After you select your network, enter the network password when you're prompted. If you don't know the network password, check with the owner of the Wi-Fi network you're trying to join.

Use a cellular device as your Wi-Fi connection

Depending on your cellular plan, your iPhone or iPad with cellular can share its Internet connection with your Mac. When your iOS device is <u>configured properly</u> and is near your Mac, it appears in the Wi-Fi menu as an available connection.

When you select a cellular device as your Internet connection, the menu icon changes to indicate your Mac is currently linked to the device (C).

Turn Wi-Fi on or off

If you're in an environment where Wi-Fi isn't permitted (like on some airline flights) you can quickly turn off Wi-Fi from this menu.

- 4. Click the Wi-Fi icon in the menu bar.
- 5. Choose "Turn Wi-Fi off."

When Wi-Fi is turned off, the menu icon changes to and empty indicator (\bigcirc). When you're ready to use Wi-Fi again, click the menu icon and choose "Turn Wi-Fi on." Then connect to the network you want to join if your Mac doesn't join it automatically.

If you don't see the Wi-Fi menu

You can enable and disable the Wi-Fi menu from the Network pane of System Preferences.

••• < > ==	Network		Q Search
Location	n: Automatic		9

+ - *	Show Wi-Fii status in	menu bar	Advanced ?
		Assist me	Revert Apply

- 6. From the Apple menu, choose System Preferences.
- 7. Click Network in the System Preferences window.
- 8. Select Wi-Fi in the list of available network connections.
- 9. Select (check) the option to "Show Wi-Fi status in menu bar."

How does the trackpad (mouse) function on my Mac?

You can do a lot on your MacBook Air using simple trackpad gestures—scroll through webpages, zoom in on documents, rotate photos, and more. With the Force Touch trackpad, pressure-sensing capabilities add another level of interactivity. The trackpad provides feedback—when you drag or rotate objects, you feel a subtle vibration when they're aligned, allowing you to work with greater precision.

Here are some common gestures:

Gesture	Action
•	Click: Press anywhere on the trackpad. Or enable
	"Tap to click" in Trackpad preferences, and simply
	tap.
	Force click: Click and then press deeper. You can
	use force click to look up more information—click
	a word to see its definition, or an address to see a
	preview that you can open in Maps.

	Secondary click (that is, right-click): Click with
	two fingers to open shortcut menus. If "Tap to
	click" is enabled, tap with two fingers.
· • •	Two-finger scroll: Slide two fingers up or down to
$\downarrow \downarrow \downarrow$	scroll.
7	Pinch to zoom: Pinch your thumb and finger open
2	or closed to zoom in or out of photos and
	webpages.
\leftrightarrow	Swipe to navigate: Swipe left or right with two
\leftrightarrow	fingers to flip through webpages, documents, and
	more—like turning a page in a book.
	Open Launchpad: Quickly open apps in
	Launchpad. Pinch closed with four or five fingers,
• '	then click an app to open it.
\leftrightarrow	Swipe between apps: To switch from one full-
	screen app to another, swipe left or right with
$\left(\begin{array}{c} \bullet \\ \bullet \end{array} \right)$	three or four fingers.

Customize your gestures. In <u>System Preferences</u>, click Trackpad. You can do the following:

- Learn more about each gesture
- Set the click pressure you prefer to use
- Decide whether to use pressure-sensing features
- Customize other trackpad features

Tip: If you find you're force clicking when you don't intend to, try adjusting the click pressure to a firmer setting in Trackpad preferences. Or change the "Look up & data detectors" option from the "Force Click with one finger" default setting to "Tap with three fingers."

What are important keyboard functions on my Mac?

Many system functions can be accessed through the function keys or using the command key.

- Brightness keys (F1, F2): Press 🔅 or 🔅 to decrease or increase the brightness of the screen.
- *Mission Control key (F3):* Press C to view what's running on your MacBook Air, including all your spaces and open windows.
- Launchpad key (F4): Press to instantly see all the apps on your MacBook Air. Click an app to open it.
- *Keyboard illumination keys (F5, F6):* Press ---- to decrease or increase the brightness of the keyboard.
- *Media keys (F7, F8, F9):* Press ⊲⊲ to rewind, ▷II to play or pause, or ▷▷ to fast-forward a song, movie, or slideshow.
- *Mute key (F10):* Press ^C to mute the sound from the built-in speakers or 3.5 mm headphone jack.

- Volume keys (F11, F12): Press () or ()) to decrease or increase the volume of sound from the built-in speakers or 3.5 mm headphone jack.
- Function (Fn) key: Each function key (on the top row) can also perform other functions—for example, the F11 key can hide all open windows and show the desktop. Hold down the Fn key while you press a function key to trigger the action associated with the key.
- *Cutting*: Press command **H** and X to cut the selected item and copy it to the Clipboard.
- *Copying:* Press command **#** and C Copy the selected item to the Clipboard.
- *Pasting:* Press command **#** and V Paste the contents of the Clipboard into the current document or app.
- Zoom In: Press command **H** and to zoom in on your screen
- Zoom Out: Press command **H** and + to zoom out on your screen

Additional keyboard shortcuts are available at this Apple link.

How do navigate to programs in my MacBook?

Go to the Finder.	Open System Preferences.
🛂 🐼 🧭 🔛 🤜 🥽 🔛 🚺	📁 🕢 💿 🚥 🗶 🚮 🍸 🛒 🐣 🚱 🚍 🔟 🛡
Apps in your Dock	Recently opened apps

Files, folders, and Trash[|]

Open an app or file. Click an app icon in the Dock, or click the <u>Launchpad</u> icon S in the Dock to see all the apps on your Mac, then click the app you want. You can also search for an app using Spotlight Q, then open the app directly from your Spotlight search results. Recently opened apps appear in the center section of the Dock.

Add an item to the Dock. Drag the item and drop it where you want it. Place apps in the left section of the Dock, and files or folders in the right section.

Remove an item from the Dock. Drag it out of the Dock. The item isn't removed from your iMac—just from the Dock.

See everything that's open on your Mac. Click the Mission Control icon \blacksquare in the Dock, or press \exists on your keyboard to view your open windows, desktop spaces, full-screen apps, and more, making it easy to switch between them. See Use Mission Control on your Mac.

Tip: Click Dock in <u>System Preferences</u> to make the Dock larger or smaller, add or remove items, move it to the left or right side of the screen, and even set it to hide when you're not using it.

How do I access my Office 365 app?

The majority of your Office 365 applications can be found in your dock at the bottom of your MacBook Screen. If you do not see the application, you are looking for you can use the Launchpad 🏾 to look for it.

To open the application, click on the icon with your mouse and wait for it to open

Teams- Purple icon with the T and people

- Word- Blue icon with the W and square
- Excel- Green icon with the X and square

For your OneDrive or Email you will need to go through another area on your MacBook.

OneDrive

At the top right corner of your MacBook screen you will see a little cloud icon . If you click on this, you will be able to access content in your OneDrive.

It will open and show you the recent documents you were working on along with the options to open your folder, view online or help and settings.

Depending on your preference you can open it online or in the folder.

Outlook Email

- 1. To access your school email, you need to start by opening a browser, we prefer Edge 오
- 2. Click on the web browser in your dock at the bottom of your Macbook.
- 3. Then go to the ROCORI home page-> <u>www.rocori.k12.mn.us</u>, if not defaulted.
- 4. Next, click on student on toolbar at the top.
- 5. A drop-down menu appears and click on Office 365 Login

6. Then, either it will connect you with your Microsoft Account or prompt you to enter your account information.

Remember, your username name is your Microsoft emails- <u>@rocori.k12.mn.us</u> and your password is the same one you use to get on the computer.

Your final screen should appear similar to the one below.

- 4. After selecting where be sure to title your document.
- 5. Finally, click save.

If these options are not available, please ask for tech support to connect your OneDrive account.

My mic or camera is not working, how to I turn them on?

- 1. Click the Apple menu, Apple icon .
- 2. Then, go to System Preferences > Click Security & Privacy > Privacy tab.

3. Select Microphone or Camera depending on which one you need to adjust on the left side->Click the box in front of the program need so a check mark appears.

4. A notification window will ask you to restart it. Agree.

- 5. Click the lock icon to make changes by unlocking the lock.
- 6. If required, enter your *admin password*.

Click the lock to make changes.	Advanced ?
---------------------------------	------------

- 7. Finally, click the lock to relock to keep the settings in place.
- 8. Then, try again and see if the issue persists.
- 9. A computer restart might be required.

I still need support and don't know where to reach out?

Please send an email to techsupport@rocori.k12.mn.us

In the email list the specific item you need support with, the device you are using (if it is a school provided device or a personal device), how you would prefer to be contacted with that information provided.

Or if MacBook related questions use their Apple Education phone support 800-800-2775, option 3

There are also many help options on the MacBook Support sitehttps://support.apple.com/mac/macbook

Thank you for your patience through distance learning at the ROCORI School District. We look forward to assisting you at our earliest convenience.
