

Summit Public Schools
Summit, New Jersey
Grade Level: 9-12/ Content Area: Fashion Design I: Semester course

Overview: Fashion Design I introduces students to fashion, consumer awareness, garment construction, technology, and careers. This course will focus on the design and construction foundations of fashion. Students will examine how the elements and principles of design have changed throughout the years and learn how to apply them to current fashion. Students will understand the wants and needs of different consumers based on their culture, personal beliefs, budget, and interests. They will learn how to hand stitch and safely operate a sewing machine to construct garments and accessories. This hands-on approach can prepare students for many future careers and life experiences.

Unit 1: Elements and Principles of Design

Anchor Standard: 2020 version of Career Readiness, Life Literacies and Key Skills Standards:

<https://www.nj.gov/education/standards/>

- Standard 9.2 Career Awareness, Exploration, Preparation and Training. All students will demonstrate knowledge about one's interests and talents, and being well informed about postsecondary and career options, career planning, and career requirements.
- Standard 9.4 Life Literacies and Key Skills. All students will demonstrate key literacies and technical skills such as critical thinking, global and cultural awareness, and technology literacy that are critical for students to develop to live and work in an interconnected global economy.

Big Ideas: *Course Objectives/Content Statement(s)*

- Students will be able to independently use their learning to choose and care for clothing.
- Students will be able to safely use sewing tools and equipment to construct garments and accessories.
- Students will be able to use basic sewing skills to mend and alter garments.
- Students will be able to utilize self-management skills to complete tasks on time.
- Students will be able to identify the wants and needs of consumers.
- Students will be able to work as a team to design a look on a dress form using draping techniques.
- Students will be able to use the elements and principles, culture, personal beliefs, economics, and current trends to shop for consumers and construct garments.

Essential Questions

What provocative questions will foster inquiry, understanding, and transfer of learning?

- How do the elements and principles of design influence your choices?
- What influences shape the fashion industry?
- What does culture mean in fashion?
- How does clothing reflect and preserve culture?
- How can I communicate more effectively?
- How can I improve self-accountability?

Enduring Understandings

What will students understand about the big ideas?

Students will understand that:

- Fashion is influenced by culture and events that shape our world.
- Clothing is an expression of our beliefs and culture.
- Understanding the elements and principles of design can help a person choose a wardrobe that helps a person look their best.

Areas of Focus: Proficiencies (New Jersey Student Learning Standards)

Students will:

- 9.4.5.CT.4: *Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).*
- 9.4.8.GCA.2: *Demonstrate openness to diverse ideas and perspectives through active discussions to achieve a group goal.*

Lessons

Lesson 1:

Elements and Principles of Design

- *Identify and analyze the elements of design (color, line, texture, and form).*
- *Identify and analyze the principles of design (balance, proportion, rhythm, and emphasis).*
- *Understand how to shop for a consumer based on their budget, silhouette, culture, and wants and needs.*

- *9.4.2.CT.3: Use a variety of types of thinking to solve problems (e.g., inductive, deductive).*
- *9.4.2.CI.2: Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a).*
- *9.4.12.CI.1: Demonstrate the ability to reflect, analyze, and use creative skills and ideas (e.g., 1.1.12prof.CR3a).*
- *9.4.8.CI.4: Explore the role of creativity and innovation in career pathways and industries.*

Career-Ready Practices

CRP1: Act as a responsible and contributing citizen and employee.

CRP2: Apply appropriate academic and technical skills.

CRP3: Attend to personal health and financial well-being.

CRP4: Communicate clearly and effectively and with reason.

CRP5: Consider the environmental, social and economic impacts of decisions.

CRP6: Demonstrate creativity and innovation.

CRP7: Employ valid and reliable research strategies.

CRP8: Utilize critical thinking to make sense of problems and persevere in solving them.

CRP9: Model integrity, ethical leadership and effective management.

CRP10: Plan education and career paths aligned to personal goals.

CRP11: Use technology to enhance productivity.

CRP12: Work productively in teams while using cultural global competence.

Differentiation

Interdisciplinary Connections

- Psychology of how humans interpret and understand visual information. Ex. The elements and principles of design include the understanding of how people view certain styles through different types of lines, the meaning of certain colors, balance, emphasis, proportion, etc. and how they help design a look that is pleasing for a consumer.
- Technology – The development of techniques and skills that impact garment making. The use of sewing

Assessments

Formative Assessments:

- *Observation*
- *In-Progress Critiques*
- *Exit Tickets*
- *Student Interviews / Conferences*
- *Classwork and discussions*

Summative Assessments, Projects, and Celebrations:

- *Rubrics for Completed Projects*

- machines, the internet, and youtube tutorials.
- Mathematics – Measurements require math and following directions on patterns reinforces reading skills. Understanding budgets when creating garments or shopping for a consumer.
- Close Reading of works of art, music lyrics, videos, and advertisements

Technology Integration

- Use of sewing machines to complete projects.
- Use of the Internet to research projects, inspiration, topics, trends, tutorials.
- Use of a Google Docs and Google Slides as a place for collecting inspiration as well as for completed projects
- Use of Google Slides to create a presentation that documents their personal shopping choices.
- Submission of projects through Google Classroom
- Listen to books on CDs, Playaways, videos, or podcasts if available.
- Use of a projector to share information.

Media Literacy Integration

- Google classroom, blogs
- Magazine ads, articles on fashion
- Use of social media for inspiration and to understand trends in fashion.
- Discussion of careers related to fashion design

Global Perspectives

- Analyze how history, culture, and beliefs influence fashion around the world.
- Analyze how our political and economic climate influences fashion.
- The design process and how it relates to other disciplines

- *Quizzes (elements and principles of design, vocabulary terms, labeling machine and tools, and lab safety).*
- *Performance rubric on construction techniques*
- *Oral and Visual Presentation of work*
- *Documentation of work at various stages*
- *Reflections on progress of projects, and final projects*

- What does culture mean in fashion?
- How does clothing reflect and preserve culture?

Enduring Understandings

What will students understand about the big ideas?

Students will understand that:

- Effective communication skills are necessary to convey meaning and understanding to others. Nonverbal communication should reinforce what is conveyed verbally.
- Personal attitudes, behaviors, knowledge, and skills promote self-awareness, personal responsibility, self-direction, and accountability.
- Using patterns and understanding their symbols simplifies garment construction and makes garments easier to mass produce.
- Understanding the elements and principles of design can help a person choose a wardrobe that helps a person look their best.
- Fashion is influenced by culture and events that shape our world.
- Clothing is an expression of our beliefs and culture.
