Volume 14 Issue 6

Medieval Times

Hello All,

What a winter! The difference from this year to last year is quite dramatic so far. I guess we'll see if that continues through the remaining months, or if old man winter has a some more tricks in store for us this year.

This month, I'd like to talk about the standards-based grading that we use at the elementary. While we have shared information directly with parents, I know there are still some questions. Here's a bit more info.

Standards-based grading is a modern method of grade reporting that focuses on what the kids know. We are sharing the specifics of what a student knows and can do with a parent and future teachers. This allows parents and teachers to better understand what a students strengths and weaknesses are, and work with them more effectively.

Your student is assigned a score of 1-4 for anything they have been working on. Students are assessed to find out whether they have mastered the standards in question. The teacher assigns a score of 1-4 based on their knowledge of the standard. Here's what those scores mean:

- 1** - The student is just beginning to learn about it, and has very little knowledge or skill.
- 2** - The student has developed some knowledge, but haven't yet mastered the skill.
- 3** - The student has mastered the skill in a way appropriate for their grade level.
- 4** - The student has mastered the skill, and has skills beyond their grade level.

The difference between a 3 and 4 is not the same as the difference between an A and a B or a C. In this system, teachers want to make sure that all students get to a 3 on all standards. As long as a student masters a skill (level 3) there is no reason to be concerned about their performance.

Standards-based grading removes behavior from the academic grade. Your student's score on any standard should show what they know, not whether they completed all assignments on time or have good work habits. We report their work habits and behavior separately, so you can still get an idea of what they are doing while learning.

In closing, standards-based grading is a well-researched grading method focused on reporting what students know and informing parents and teachers for future instruction. If you have more questions, I am happy to help you with it, and your child's teacher would be happy to explain any specific grading questions. I also have a lot of articles and resources that can explain it better than I can, and would be happy to share those with anyone interested. I hope you all have a wonderful February.

Sincerely,

Bart K. Hawkins, Superintendent
North Star School District 99M

HERE'S THE NEWS

Mrs. VanWechel's Class

My 3rd graders completed a STEAM project (Science Technology Engineering Art and Math) where they had to determine which shape (cylinder, triangle, or square) would hold the most books. The shapes were made of printer paper. The cylinder was the winner, holding 17 books!

Third Grade News

6TH GRADE

Mrs. Lockridge's Science class

How does color affect temperature?

Sixth graders used the lab for the first time and had an amazing experience. Thanks to Mrs. Renaker, we were able to use the technology and materials to conduct an experiment.

6TH GRADE

Continued...

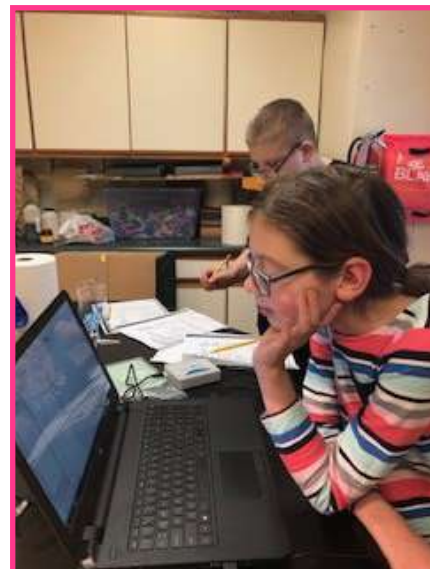

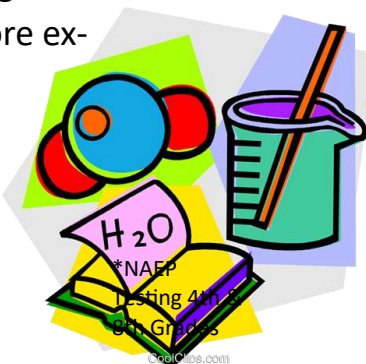

Our Science Experiment

We learned about how the color of an object, placed under a lamp, absorbs heat.

Outcomes

We learned black absorbs the most heat while yellow absorbs the least. We graphed our information and shared our results.

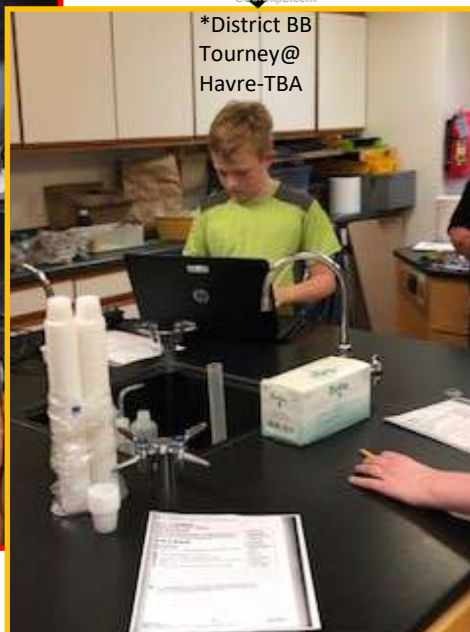

We learned that the Earth absorbs energy at different rates through exposure to the sun's rays. We are currently studying weather and will be doing many more experiments about weather.

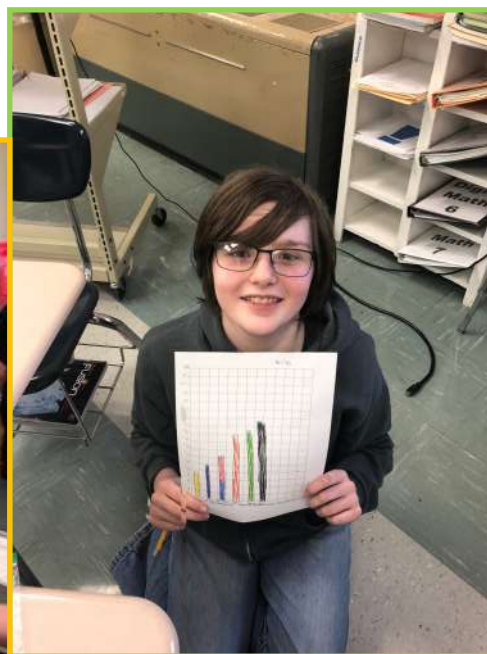

"Science is fun. Working with the computers in the lab was interesting."-Madelyn Myers

Faith Keith working in the lab.

Keaten Chinadle entering data.

Brody Jackson with his graph.

Getting Our Hands Dirty

The Earth Science Students get their hands dirty in January working with soils. Hey, we're Earth Science. We are supposed to get our hands dirty, aren't we? Anyway, we were studying how to classify soils using a soil texture triangle. In this activity, students are to take a sample of soil in their hands and wet it slightly. If they can make their sample into a ball that holds together, they can determine that it contains clay. Being able to make a ribbon of a certain length will give us an

idea of how much clay is there. The longer the ribbon, the greater the percentage of clay. In the second part of the activity, students had to add a bit more water and rub some of their sample between their fingers to feel for sand and silt. If it felt more gritty, we knew that it contained more sand, while a silky feel would help us determine that it held more silt.

As a result of the activity, we were successfully able to classify the two soil samples we had. The first sample was from the base of Black Butte near Havre. We determined the soil classification to be Sandy Clay, which definitely makes sense as the Butte is made mainly of igneous rock with a lot of quartz in it. The second sample was from the Beaver Creek flood plain not far from the Butte. Our tests showed this soil to be a Silty Clay Loam.

The students found that knowing what your soil type is can be very important. Each particle in the soil can help with different characteristics. Clay brings important water and nutrient holding capacity to the soil. You do want some permeability as well, which is why it's good to have sand in your soil as well as clay.

All in all, it was a great activity to do and the students really enjoyed themselves. Winner, winner, chicken dinner! Until next time. —Pam Renaker

LFL-Little Free Library

Check out what's new in Rudyard! The Chirping Meadowlarks 4H Club has placed a Little Free Library right down the road from Toner's.

What is a Little Free Library (LFL)? A LFL is a national program that anyone can use- neighbors, friends and passers-by. The books are always free. **Take a book...**if you see something that you'd like to read, take it! It's for you. Some books include a note about who gave it or has read it. You may leave your own note in it when you're done. **Share a book...**When you're finished with a book,

you may pass it along to a friend or return it to this library or any other Little Free Library. **Leave books...**Your books are welcome at any LFL. If this one is full there is another Little Free Library at the Havre IGA. The mission of the Little Free Library is to inspire a love of reading, build community and spark creativity by fostering neighborhood book exchanges around the world. For more information about the Rudyard or Havre Little Free Library please contact Reba Domire at 390-1343 or Cassie Solomen at 390-4242. For more information about the Little Free Library program visit www.littlefreelibrary.org

Science + Math

Science and Math Exploration for Middle School Girls

The 26th Annual Expanding Your Horizons in Science and Mathematics (EYH) Conference will be held on **Saturday, March 30, 2019, 8:30 AM to 3:30 PM at Montana State University in Bozeman.**

The focus of the workshop is to encourage young women in grades 6-8 to explore a variety of math and science related professions through fun and creative hands-on workshops. **Conference registration will open March 4, 2019** and the cost is just \$30.00, which includes lunch and supplies. Space is limited to 240 participants and is determined on a first-come basis. Register early!

Registration forms will be sent to Mrs. Spinler at the beginning of March. Students may also learn more about the conference at : <http://ato.monanta.edu/eyh/index.html>. Registration forms will also be available online after March 4.

For further information or questions, contact EYH Program Manager, Nicole Soll, at (406) 994-6633 or Nicole.soll1@montana.edu

North Star Business Professionals of America (BPA) Regional Competition Results

On Monday, January 21, 2019, Business Professionals of America (BPA) members along with their advisor, Mrs. Karleen Wolery, attended their Regional Competition in Great Falls. Approximately 250 BPA members attend this competition. This year, 11 North Star BPA members earned 36 awards, with 5—1st place, 7—2nd place, and 8—3rd place awards. Listed below are the awards received by each member. BPA members will compete at the State BPA Convention in Billings, March 8th -12th. Excellent job, North Star Business Professionals of America!!! A special thanks to Bruce Kapperud for driving our bus!

Olivia King:

District Honor Choir

The District 7 Honor Band and Choir Festival was held November 26 and 27th in Cut Bank. Three North Star Choir students were selected to participate in the event: Hayden Massar,

Garrett Pedersen, and Kenidee Wolery. Rehearsals began Monday afternoon and culminated Tuesday evening with a concert in the Cut Bank High School Gymnasium. The combination of voices from across North Central Montana was absolutely beautiful. It was a treat to have familiar faces make us feel at home – Mr. Scott Kendall as our Festival host and Mr. Patrick Ryan as the guest choral director. Special thanks to Mrs. Wolery who served as a chaperone in Mrs. Campbell's absence. The concert available to view on the [NFHS Network](#) (no subscription required).

L-R: Dylon Melby (1st), Colton Spicher (2nd), and Carter Campbell (3rd).

2019 Geography Bee

The school-wide Geography Bee was held on January 22nd in the Rudyard Gym. The contest included 10 finalists from Grades 4-8. Finalists qualified by finishing in the top two in classroom competitions. After several rounds, the field was narrowed to two familiar faces: Colton Spicher and Dylon Melby. Dylon prevailed in the Championship Round and will now take an online qualifying test for the opportunity to represent North Star at the state level in March. Congratulations and Good Luck! Special thanks to moderator, Mr. Berardinelli and judges: Mrs. Spinler, Mr. Hawkins, and Mrs. Sue Wendland.

Participants in the North Star Geography Bee

2019 Spelling Bee

The school-wide Spelling Bee was held on January 23rd in the Rudyard Gym. The contest included 16 finalists from Grades 5-8. The top four spellers were taken from each class. It took quite a few rounds but then we finally were down to our top five spellers: Colton Spicher (1st), Emily Conner (2nd), Travis Otto (3rd), Dylon Melby (4th) and Tristen Swick as the Alternate.

Participants in the North Star Spelling Bee

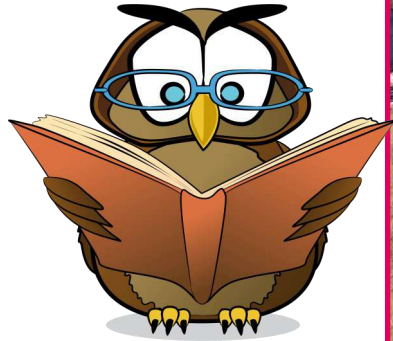

Congratulations to these spellers and good luck as they will be competing in the Hill County Spelling Bee at the Havre Middle School on the Eleventh of February, 9:00 a.m. Special thanks to judges: Mr. Hawkins, Mr. Froehlich, and Ms. Humphreys.

L-R: Tristen Swick, Dylon Melby, Travis Otto, Emily Conner, and Colton Spicher

Readers are Leaders:

These 4th and 5th Grade students earned their required Accelerated Reader points for 2nd Quarter and were treated to a lunch out in Havre and some time at Pepin Park. Thank you to Booster Club for sponsoring lunch and Pizza Hut for having us!

These 6th-12th Grade students earned 50 points (or more!)

through the Accelerated Reader program 1st Semester. For their commitment and hard work, they were treated to lunch at Pizza Pro. (Sponsored by North Star Booster Club.)

North Star Booster Club Dues

\$25.00 per family
\$50.00 business membership Funds
support school activities K-12

Send checks to either school in care of North Star Booster Club. Thank you for your support.

Shoes, Shoes, Shoes...

North Star Elementary is still collecting new or gently used shoes (no holes, laces if applicable, clean and still have life in them) as a fundraiser for new playground equipment. Collection sites include both school campuses, the Hi-Way Bar and K-lanes. Please contact Jessica Myers if you have any questions at jmyers@nsschools.org or 397-3281. Our goal is to collect 10,000 pairs and we are only at 3,500! Keep them coming!!

Box Tops

North Star Elementary is once again collecting Box Tops for Education this year. You can find them on various grocery and sundry items, clip them out, gather them up, and turn them in to the Elementary. Then, three times a year they are submitted to Box Tops headquarters and we get a check in return. The money earned has been used toward purchase of playground equipment and recreation supplies for

our students. Collecting Box Tops is a great activity for kids as they are not only helping out our school, they can practice their cutting skills. Please double check that you are not submitting any expired Box Tops and do your best to cut them out accurately. If you have any questions, contact Katie in the Elementary Office. Thank you for helping contribute to our school!

9-C District Basketball Tournament

Tickets will go on sale to the general public

Monday, February 4th

Reserved All-Session Tickets = \$32.00

Student General Admission All-Session Tickets = \$25.00

All of North Star's allotment of tickets have been
sold out to the families of our team members.

However, Mr. Campbell will get another block of tickets from
one of the other schools and have them available to purchase.

TO ORDER : please e-mail bcampbell@nsschools.org

♥ Happy Valentines Day ♥

Trustee Candidates may file for Election

DECLARATION OF INTENT AND OATH OF CANDIDACY FOR TRUSTEE CANDIDATES

Forms for the upcoming Trustee Election to be held on Tuesday May 7, 2019 are available.

Forms may be picked up from Kathy Preeshl (election administrator) at the High School Business Office located at North Star High School, 105, 3rd Ave NE, Rudyard, MT 59540

NO CANDIDATE MAY APPEAR ON THE BALLOT UNLESS HE OR SHE MEETS THIS DEADLINE.

(13-10-201, 20-3-305 MCA). (No earlier than 145 days or not later than 40 days before election).

Candidate must be registered to vote at the time the Oath is filed.

Trustee Positions open for a 3 year term

Trustee Position open for a 2 year term

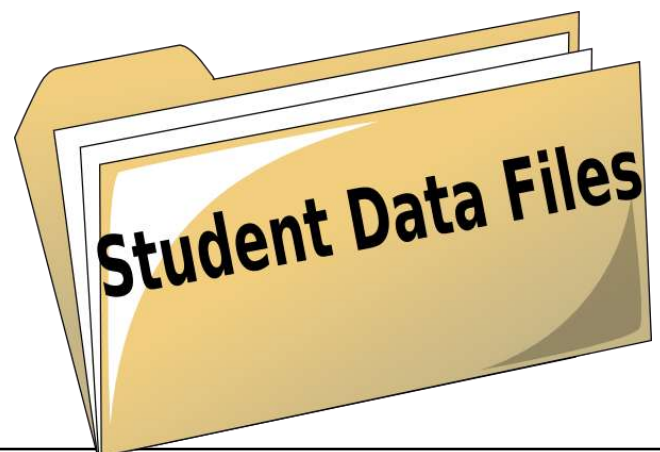

Any candidate that has already filed for election, but wishes to withdraw their name, may do so by sending a statement of withdrawal to the election administrator, no later than 5:00 PM the day before ballot certification. (20-3-305(2)(b)MCA), (Thursday April 4, 2019 by 5:00 PM)

Candidate forms must be picked up and returned by 4:00 PM on Thursday March 28, 2019.

Transcripts

Beginning with the Class of 2019 and subsequent classes, transcript requests can be made electronically through Parchment. Transcripts are free for two years following graduation. After that, there is a \$3.15 fee that will be collected by Parchment. Destinations such as colleges, NCAA, Common Application or yourself can be requested. In three easy steps, you can order your transcript:

1. Register for your free account at parchment.com.
2. Request your transcript.
3. Track your transcript. A student can not only request a transcript but explore and compare colleges and analyze admissions data. Visit parchment.com. If you need further assistance, contact Rose Spinler or Carol Tempel.

DIVISIONAL and STATE SPEECH & DRAMA

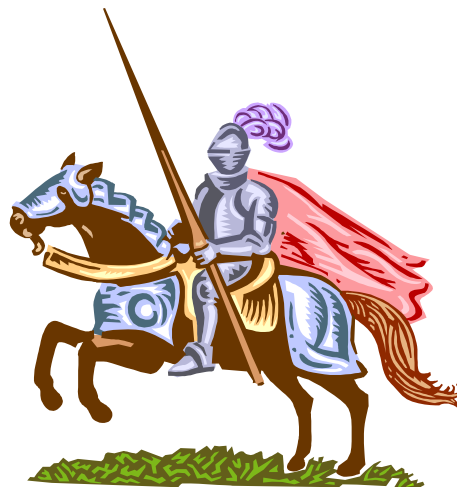

The North Star Knights Speech and Drama team traveled to Malta for Divisionals on Saturday with all seven

making it to finals. Here are the results: Impromptu-Garret 7th, Daniel 8th, Dramatic Interp--Ashley 5th, Spontaneous Interp--Aubrey 4th, Humorous Interp--Hayden 2nd and in Classical Acting-Choral and Katie 2nd. In Drama Sweeps, North Star brought home the 3rd place trophy.

North Star next traveled to Three Forks on the 25th and 26th of January to end out their season at the State tournament. It was tough competition, however, the team did an amazing job representing our school. Here are the results: Aubrey Welch placed 16th in Spontaneous Oral Interp. Making it to Semi-Finals were: Choral Wicks and Katie Berg in Classical Theatre Acting-ranked 13th, Ashley Otto in Dramatic Oral Interp-ranked 14th, and Hayden Massar who just missed making Finals-ranked 9th in Humorous Oral Interp. As a team, North Star ranked 12th in Speech and 13th in Drama.

Once again, great job Knights!

P.S. Don't forget to check out their awesomeness--make it to the Pit on February 7th for the Annual Speech and Drama Showcase at 6:30 p.m.

Announcing School Surplus Sale
