FFA Point System- Leadership Points

The FFA family points system is to help members be recognized for their involvement in the FFA chapter. The more a student participates, the more points they will receive. This system will determine who is awarded the leadership award at banquet and may help determine tiebreakers. This will also recognize students families and determine prize winners at each 9 weeks and overall top family. Tickets will be given at each FFA event a student attends, in addition to recording the points
