**Opinion/Recommendation**

Wow a spider in Charlottes Web the book. The story Charlottes Web was sad and fun I also think that at the end Wilbur noticed that he had another friend . I think that other people should read this book because you'll actually feel the way the characters feel. Like if there sad you might see a picture and think it's sad. Also I think that lots of people should read this book like me. It is fun cool and you should read it.
