Unit 2 | Savings

- Go to www.practicalmoneyskills.com
- In the blue bar at the top of the screen, find the tab for **Play**
- From the choices, pick **Financial Football**
- Click **Play Online**
- While the game is loading, there are a lot of tips that come across the screen, read them.

There is also a phone app if you would rather play it there.

Search for **VISA Financial Football**

For this game, you will get to set up an NFL football game. In order to move your team closer to a touchdown, you must answer the questions correctly. Because we have only covered two units and this game is covering many units, don't be disappointed if you don't win. However, feel free to play it more than once. **Hint:** if you don't know much about football, you may want to start on the opening screen by clicking on the How To Play near the bottom of the screen.

Start the game like this:

1. Click **Play The Game**
2. Choose **Head to Head**, then click **Continue**
3. Choose **All Pro**
4. Choose **20 Min Game**
5. Pick your teams
 - a. Mrs. Ryan likes to pick the Packers vs. Bears
6. Then start playing Financial Football

When playing the game:

- You must pick a play. *It doesn't really matter which one you choose.*
- You can choose Easy, Medium, or Hard questions. *Until you get comfortable, I would start with easy questions.*

After the game. Answers these questions.
