

FINDING FACES

Artists look at things in different ways than other people.
You can learn to see things like an artist if you practice.
Here is a fun challenge for you to train your brain and
eyes to see what's around you in a different way!
You don't need any art supplies except your eyes.

Did you ever notice that sometimes there are faces on houses and other buildings? Take a walk with a family member and see how many you can find.

If you can't go for a walk just look around your house for objects that resemble faces. See how many you can find just in your kitchen, look in the drawers and I bet you'll find quite a few!

This fun "thinking like an artist" challenge was created by Charlene Cloutier
