

## FIRST AID KIT

Today we will be making a first aid kit and placing several items inside the kit. Each item that we place in the kit should tell me something different about you. You will cut out and decorate the kit and each item that will go inside. On the back of each item write the following.

1. First Aid Kit- Your name and your possible future health profession
2. Band-Aids (3)-goals you want to stick with this year
3. Gloves-what is something I need to know to give you a hand in this class
4. Eye wash-where do you see yourself in 5 years
5. Ace wrap-who holds you together
6. Gauze pads-what puts pressure on you
7. Tweezers-pick out 2 things you are interested in learning about this year
8. Bug spray-what bugs you
9. Candy-what is your favorite
10. Scissors- something you would like to cut out or change this year.

**\*\*Each item is worth 10 points.**
