

Health Science

First Aid Kit 18-19

It's time to prepare for Health Science classes
by building your own First Aid Kit

First...The container

Band Aid: 3+ Goals to stick with for this year

Gloves: What is something I can do to give you a hand?

Eye Wash: Where do you see yourself in 3-5 years?

Ace Wrap: What/Who holds you together?

Gauze Pad: What puts pressure on you?

Tweezers: Pick out 2 things that you are interested in learning this year

Bug Spray: What bugs you (in school & out)?

Candy: What's your favorite?

Stethoscope: What do you like to listen to?

Medicine/Shot: What are you afraid of?

Magnifying Glass: What are the 3 most important things in your life?

Brain: What helps you learn best?

Thermometer: What excites you about learning?

Scissors: What is one thing you wish you could get “cut” out of school?

Sunscreen: What did you do this summer?
