Board Policy and SAP Re:  
National School Lunch and  
Breakfast Program

Dated: 6/14/16, 5/9/17

---

The Board recognizes that students require adequate, nourishing food and beverages in order to grow, learn and maintain good health. The Board directs that students shall be provided with adequate space and time to eat meals during the school day.

The food service program shall be operated in compliance with all applicable state and federal laws and regulations, as well as federal guidelines established by the Child Nutrition Division of the United States Department of Agriculture (USDA).

The District shall ensure that, in the operation of the food service program, no student, staff member, or other individual shall be discriminated against on the basis of race, color, national origin/ethnicity, veteran status, gender, age, disability, sexual orientation, gender identity/expression, or religion.

Food sold by the school may be purchased by students and district employees for consumption at school and for school-related purposes. The price charged to students shall be established annually by the District in compliance with state and federal laws.

Non-program food shall be priced to generate sufficient revenues to cover the cost of such items. A non-program food shall be defined as a food or beverage, other than a reimbursable meal or snack that is sold at the school and is purchased using funds from the child nutrition account. Non-program foods include but are not limited to adult meals and a-la-carte items. All revenue from the sale of non-program food shall accrue to the child nutrition program account.

Operation and supervision of the food service program shall be the responsibility of the Assistant Superintendent or designee(s).

The Board Secretary shall present to the Board each month for its approval a statement of receipts and expenditures for food service funds.

Food services shall be operated on a nonprofit basis. A periodic review of the food service accounts shall be made by the Chief Financial Officer and/or the District's independent financial auditor.

The Assistant Superintendent or designee(s) shall ensure that school meals meet the standards required by the School Breakfast Program and the National School Lunch Program.

The Assistant Superintendent or designee(s) shall comply with state and Federal requirements for conducting cafeteria health and safety inspections and ensuring employee participation in appropriate inspection services and training programs.

The Assistant Superintendent or designee(s) shall annually notify students, parents/guardians, and employees concerning the contents of this policy and applicable administrative procedures. Notification shall include information related to nondiscrimination.

### **Guidelines**

To reinforce the District's commitment to nutrition and student wellness, foods served in school cafeterias shall:

Be carefully selected to contribute to students' nutritional well-being and health.

Meet the nutrition standards specified in law and regulations and approved by the Board.

Be prepared by methods that will retain nutritive quality, appeal to students, and foster lifelong healthy eating habits.

Be served in age-appropriate quantities, at reasonable prices.

All funds derived from the operation, maintenance or sponsorship of the food service program shall be deposited in separate food service funds, in the same manner as other District funds. Such funds shall be expended in the manner approved and directed by the Board, but no amount shall be transferred from the cafeteria fund to any other account or fund; however, District advances to the food service program may be returned to the District's general fund from any surplus resulting from its operation.

Surplus accounts shall be used only for the improvement and maintenance of the food service program.

### **Procurement**

Procurement of goods or services for the food service program shall meet the requirements of applicable law, regulations and Board policy and administrative procedures.

### Free/Reduced-Price Meals

The District shall provide free and reduced-price meals to students in accordance with the terms and conditions of the National School Lunch Program and the School Breakfast Program.

### Accommodating Students with Special Dietary Needs

The District shall make appropriate food service and/or meal accommodations to students with special dietary needs in accordance with applicable law, regulations and Board policy.

### School Food Safety Inspections

The District shall obtain two (2) safety inspections per year in accordance with local, state, and federal laws and regulations.

The District shall post the most recent inspection report and release a copy of the report to members of the public upon request to the extent required by law.

### School Food Safety Program

The District shall comply with federal requirements in developing a food safety program that enables District schools to take systematic action to prevent or minimize the risk of foodborne illness among students.

The District shall maintain proper sanitation and health standards in food storage, preparation and service, in accordance with applicable state and local laws and regulations and federal food safety requirements.

### Professional Standards for Food Service Personnel

The District shall comply with the professional standards for school food service personnel who manage and operate the National School Lunch and School Breakfast Programs. For purposes of this policy, professional standards include hiring standards for new food service program directors and annual continuing education/training for all individuals involved in the operation and administration of school meal programs. Such professional standards shall apply to both District-operated food service programs and contracted food service programs.

### School Meal Accounts

Individual accounts shall be assigned to each student for accounting purposes for the purchase of meals served in school cafeterias.

The Assistant Superintendent or designee(s) shall develop and disseminate administrative procedures designed to control school meal accounts. The administrative procedures should include the following:

Procedures for collecting money for individual student accounts which ensure that the identity of each student is protected.

Method in which students and parents/guardians are notified when the student's account reaches a specified level. At least one (1) advance written warning shall be given to the student and parent/guardian.

Procedures for providing students with meals when the student forgets or loses his/her money or when their account has insufficient funds.

Procedures governing the collection of money for negative balance student accounts.
