Now let's select your elective classes.

Keep in mind that every student needs to forecast for a total of 7 credits.

You will need to continue making selections until your total credits equals exactly 7.0

Make sure you have a total of 7.0 credits

The system will keep track of how many credits you have chosen.

Do NOT move on until you have forecasted for <u>exactly</u> 7.0 credits.

If you make a mistake, click "Remove" next to the unwanted course and search for the correct course to add it to your list.

Next Step: Choosing Alternate Electives

We try to ensure that every student is given the opportunity to take all the classes they are interested in taking, but sometimes it doesn't work with your schedule.

When that happens, the system will choose from your Alternate List of electives.

Things to keep in mind when selecting your alternates:

- ★ Courses will be chosen in the order they appear on your list. Make sure your favorite is listed first, your 2nd favorite second, etc. You can change the priority by clicking
 next to the course name and dragging your selections up/down the list
- ★ Choose <u>at least</u> 4 other courses that you are interested in taking.
- ★ If you do not choose alternate electives, your counselors will choose for you based on availability
